Future Narratives Christoph Bode, Rainer Dietrich, 2013-10-29 This head volume of the Narrating Futures series defines and identifies Future Narratives It parses their characteristic features and aims at an abstract classification of the whole corpus irrespective of its concrete manifestations across the media Drawing on different theorems and approaches it offers a unified theory and a poetics of Future Narratives Locating the media historical moment of their emergence this volume paves the way for the following volumes which deal with how Future Narratives are refracted through different media Novel Histories Roland Boer, 1997 William Gibson and the Future of Contemporary Culture Mitch R. Murray, Mathias Nilges, 2021-03-15 William Gibson is frequently described as one of the most influential writers of the past few decades yet his body of work has only been studied partially and without full recognition of its implications for literature and culture beyond science fiction It is high time for a book that explores the significance and wide ranging impact of Gibson's fiction In the 1970s and 80s Gibson the Godfather of Cyberpunk rejuvenated science fiction In groundbreaking works such as *Neuromancer* which changed science fiction as we knew it Gibson provided us with a language and imaginary through which it became possible to make sense of the newly emerging world of globalization and the digital and media age Ever since Gibson's reformulation of science fiction has provided us not just with radically innovative visions of the future but indeed with trenchant analyses of our historical present and of the emergence and exhaustion of possible futures Contributors Maria Alberto Andrew M Butler Amy J Elias Christian Haines Kylie Korsnack Mathias Nilges Malka Older Aron Pease Lisa Swanstrom Takayuki Tatsumi Sherryl Vint Phillip E Wegner Roger Whitson Charles Yu **The Routledge Introduction to Canadian Fantastic Literature** Allan Weiss, 2020-12-29 This study introduces the history themes and critical responses to Canadian fantastic literature Taking a chronological approach this volume covers the main periods of Canadian science fiction and fantasy from the early nineteenth century to the first decades of the twenty first century The book examines both the texts and the contexts of Canadian writing in the fantastic analyzing themes and techniques in novels and short stories

and looking at both national and international contexts of the literature's history This introduction will offer a coherent narrative of Canadian fantastic literature through analysis of the major texts and authors in the field and through relating the authors work to the world around them **Science Fiction and the Ethics of Artificial Wombs** Evie Kendal, 2025-12-11 In this revolutionary book Evie Kendal explores the potential that ectogenesis has to promote sexual equality in human reproduction and the role science fiction plays in imagining its realisation **The Publishers Weekly**, 2003 **The Art of Charlie Chan Hock Chye** Sonny Liew, 2016-03-01 NEW YORK TIMES BESTSELLER From a bestselling graphic novelist comes a hugely ambitious stylistically acrobatic work The New York Times Book Review that brings us on a uniquely moving funny and thought provoking journey through the life of an artist and the history of a nation Meet Charlie Chan Hock Chye Now in his early 70s Chan has been making comics in his native Singapore since 1954 when he was a boy of 16 As he looks back on his career over five decades we see his stories unfold before us in a dazzling array of art styles and forms their development mirroring the evolution in the political and social landscape of his homeland and of the comic book medium itself With The Art of Charlie Chan Hock Chye Sonny Liew has drawn together a myriad of genres to create a thoroughly ingenious and engaging work where the line between truth and construct may sometimes be blurred but where the story told is always enthralling *Historia* Louis Gerard Mendoza, 2001 The nature of ethnic identity has been a major issue in the Mexican American community for decades now *Historia* The Literary Making of Chicana and Chicano History makes a superb contribution to the multidisciplinary exploration of ways Mexican Americans have chosen to present their past through both factual and fictional narratives Whereas history has offered frameworks for interpreting generational changes in the understanding of identity literature has been particularly rich in exploring themes of power and domination and of intragroup complexities Louis Gerard Mendoza argues in this innovative look at historical and imaginative literatures and their role in the formation of ethnic identity Focusing on late twentieth century literature and history by American writers of Mexican descent Mendoza examines how style purpose and context function to facilitate or constrain the understanding of the past By juxtaposing the literary and the historical he provides new insight on culture agency and experience Mendoza accepts as his starting point the generational model posited by historian Mario Garc a then contrasts for each generation the nuances and contradictions offered by one or more Chicana o creative writers Other historians whose works are centrally considered include Juan Gomez Qui ones Rodolfo Alvarez Ricardo Romo David Montejano and Carlos Mu oz while the literary writers featured include Jovita Gonz lez Alejandro Morales Sara Estela Ram rez Teresa Paloma Acosta Oscar Zeta Acosta and Am rico Paredes Mendoza argues that history is the narrative battleground upon which literature is based the writing and rewriting of Chicano history thus becomes an important subtext of Chicana o literature However he contends that most Chicana o historical narratives are integrated uncritically into literary analysis to establish background resulting in the invocation of the histories as representations of the real Libraries Borderlands scholars and those interested in the broad issues of cultural
