Writers responded to the changing political situation and its daily impact on the country's inhabitants with works that recorded or satirised state-enforced racism, explored the possibilities of resistance and rebuilding and creatively addressed the vexed question of literature's relation to politics and ethics. *Writing South Africa* offers a window on the literary activity of this extraordinary period that conveys its range going well beyond a handful of world-renowned names and its significance for anyone interested in the impact of decolonisation and democratisation on the cultural sphere. It brings together for the first time discussions by some of the most distinguished South African novelists, poets and dramatists with those of leading commentators based in South Africa, Britain and North America. *The Publishers' Trade List Annual*, 1992 **Olderr's Fiction Index**, 1990 **Forthcoming Books** Rosemary Jolly, 2001 *The New York Times Index*, 2006 **Perspectives USA**, 1952 *The Statesman*, 1974 **C Magazine**, 1992 *The New York Times Book Review*, 1962 *Fantasy Review*, 1985 **The Publishers Weekly**, 2008 **Current Biography Yearbook**, 1993 **Dictionary of Literary Themes and Motifs** Jean-Charles Seigneuret, 1988 This index is a veritable who's who of the greats of Western literature. The Board recommends it for every collection whose users conduct analytical studies of literature. Reference Books Bulletin The powerful hold that literature exercises is based primarily on recognition: the reader's ability to identify with others through shared human concerns that transcend time and cultural boundaries. These universal themes and how they have been treated in literature from the classical period to the present are the subject of the critical essays comprising this volume. A fascinating resource for students and general readers and an essential research tool for scholars in literature, it is the first thematic reference on this scale to be published in English. The dictionary consists of 143 essays contributed by 98 specialists in world literature. Topics covered include themes relating to adventure, family life, the supernatural, eroticism, status, humor, idealism, terror and many other categories of human experience. Each entry begins with a definition and a sketch of the origin and historical background of the literary theme. The topical essay discusses the significance and occurrence of the theme in world literature and supplies information on geographical area, genre, style and chronology. Entries conclude with a selected bibliography of scholarship in the area. A cross-index to themes and motifs will enable the reader to find information on secondary or related topics. Convenient to use and presented in a standardized format, this major new reference will be an important acquisition for libraries with collections in English, American and world literature. **Current Biography Yearbook** Charles Moritz, 1993 **U.S. Latino Literatures and Cultures** Francisco A.
