## **Primer Time Travel Paradox:**

Space Oddities Marie Lathers, 2012-05-03 A fascinating new perspective on the Space Race combining brilliant film scholarship with gender studies and feminist theory      **Impossible Puzzle Films** Miklos Kiss, 2017-04-28 Narrative complexity is a trend in contemporary cinema Since the late 1990s there has been a palpable increase in complex storytelling in movies But how and why do complex movies create perplexity and confusion How do we engage with these challenges And what makes complex stories so attractive By blending film studies narrative theory and cognitive sciences Kiss and Wilemsen look into the relation between complex storytelling and the mind Analysing the effects that different complex narratives have on viewers the book addresses how films like *Donnie Darko* *Mulholland Drive* and *Primer* strategically create complexity and confusion using the specific category of the impossible puzzle film to examine movies that use baffling paradoxes impossible loops and unresolved ambiguities in their stories and storytelling By looking at how these films play on our mind's blind spots this innovative book explains their viewing effects in terms of the mental state of cognitive dissonance that they evoke

**Genesis Prime** Gary W. Babb, 2024-09-25 The arduous 200 light year space journey from a destroyed Earth is finally over Now Captain Nick Johns and the crew of the spaceship *Genesis* must carve out space on a new world to colonize Unfortunately their new home planet *Genesis Prime* is already inhabited by three sentient races one of which is human transplanted from Earth in the 3rd Century BC by aliens needing slave labor Captain Johns and his crew liberate the enslaved humans and capture the aliens ruling over them The human slaves still lived in the 3rd Century culture and viewed the humans of the *Genesis* as Olympian gods actually believing Captain Johns was the Olympian god Zeus During the liberation they also captured the alien technology which was far more advanced than that of the *Genesis* Eventually they befriend the few remaining aliens and learn the secrets of their technology one of which is a Plasma Bubble that can transport matter through time and space They use this technology to free the last remaining almost extinct aliens from their home world In doing so the *Genesis* attracts the attention of the alien's adversaries that were waging genocide against them These adversaries now turn their war upon the *Genesis* colony Battles rage against these vicious attacking aliens until the *Genesis* must face the most ruthless and dangerous race yet the Human Race Captain Johns learns with absolute certainty that humans can not be trusted to govern themselves Humans by their very nature are self destructive and given enough time they will destroy themselves The hardest battles came from within the Human Race and its inherent treachery      **Media, Terrorism, and Theory** Anandam P. Kavoori, Todd Fraley, 2006-01-20 Over the past few years coverage of terror attacks has featured prominently in numerous media outlets Drawing on both popular and academic articles the essays in *Media Terrorism and Theory* analyze the larger issues surrounding media's portrayal of terrorism including terrorism as a media event war and media nationalism and media public responsibility and journalistic accountability Renowned contributors from around the world explore these issues as they relate to a global community From such diverse fields as

cultural studies political science media studies architecture and information science each brings a distinctive perspective Answering a growing need to understand media discourse on terrorism Media Terrorism and Theory complements readings in upper level mass communication courses and will appeal to students and scholars of international media and terrorism
