## **Crypto For Beginners Primer:**

**Cryptocurrency for Beginners** Stephen Satoshi, 2018-07-31 If you're thinking of buying cryptocurrency in the future consider this. If only I'd bought back then. Sound familiar? It probably does. Because when it comes to cryptocurrency there are so many, if only the one that got away. Stories 7 years ago you could've bought 1 Bitcoin for just 10 cents. That same Bitcoin is worth over 8000 today. 100 dollars invested in 2010 would be worth over 8 million dollars today. But now you have an opportunity that's far from typical. It's an opportunity to cryptocurrencies while the prices are down 60% from the start of the year. You're probably thinking if prices are down so much why on Earth would I buy? The answer is this dip is only temporary. Because it gives institutions like investment banks a chance to load up their own holdings for less. Banks like JP Morgan who just last year were adamantly against cryptocurrency but now are offering it as an investment option. And the Chicago Board of Exchange who just filed an application to provide the world's first Bitcoin ETF. Which is why earlier this month Bitcoin rose 28% in just 4 days. Indicating that the next big boom might just be upon us. In this giant 15 book bundle you will discover: A complete analysis of over 70 different cryptocurrencies.
