*Economics and Politics of Energy in the Middle East and Eastern Europe* Natalya Ketenci,Ayse Sevencan,2021-05-06

Energy policy has always been important to the population for stability and to advance technological progress and economic growth. The scope of energy discussions and concerns in the world have expanded significantly in the last several decades. In order to cope with accelerating pollution from fossil fuels countries have increased investments in renewable energy power plants. However the existing technology does not allow for the significant increase of the capacity of renewable energy facilities in a short period. As a result in order to maintain economic growth countries continue to be highly dependent on fossil fuels like oil natural gas and coal. At the same time some countries start to encounter such problems as depletion of their oil and natural gas resources. The aim of this book is to analyze energy resources in the Middle East and Eastern Europe and relations between countries that appear as a result of new discoveries in this area.

### **The Cold War in East Asia**

Xiaobing Li, 2017-09-13 This textbook provides a survey of East Asia during the Cold War from 1945 to 1991. Focusing on the persistence and flexibility of its culture and tradition when confronted by the West and the US this book investigates how they intermesh to establish the nations that have entered the modern world. Through the use of newly declassified Communist sources the narrative helps students form a better understanding of the origins and development of post WWII East Asia. The analysis demonstrates how East Asia's position in the Cold War was not peripheral but in many key senses central. The active role that East Asia played ultimately turned this main Cold War battlefield into a buffer between the United States and the Soviet Union. Covering a range of countries this textbook explores numerous events which took place in East Asia during the Cold War including The occupation of Japan Civil war in China and the establishment of Taiwan The Korean War The Vietnam War China's Reforming Movement Moving away from Euro American centric approaches and illuminating the larger themes and patterns in the development of East Asian modernity. The Cold War in East Asia is an essential resource for students of Asian History the Cold War and World History.
