Building Bridges between Cultures in Ian McDonald's Science Fiction Jerome Winter, 2025-09-18 This book is a career long retrospective of the Irish writer Ian McDonald and his complex compelling representation of our contemporary global condition. Ian McDonald is a celebrated writer within the science fiction community whose rich and urgent body of works span over a quarter of a century. The author claims McDonald's work functions as vital troubling allegories which both refuse the Orientalist euphemizing of colonial atrocities while still at the same time envisioning a transformative global alterity seeking an ethical and political embrace of systematically silenced subaltern voices in the neoliberal world system. The book follows McDonald as the globe trotting writer travels from Ireland to Kenya to India to Brazil to Turkey to a proliferating multiverse and beyond. Along the way the author analyzes McDonald's science fiction as a salient contribution to the flourishing cosmopolitan literature of postcolonial developing nations at the crossroads of the global imaginary. *The Cambridge Companion to American Science Fiction* Gerry Canavan, Eric Carl Link, 2015-01-26 The Cambridge Companion to American Science Fiction explores the relationship between the ideas and themes of American science fiction and their roots in the American cultural experience. The Reflective Age Zachary Griffith,2025-12-09 At the end of history nothing ever really ends Though characterized on one hand by sociopolitical and economic stasis stagnation and decline twenty first century American culture has also been marked by the constant ebb and flow of preexisting artifacts and styles so that when one fades out of fashion it is always replaced by another reiteration Change on the cultural level has accelerated at an unprecedented rate and old things are constantly returning anew The present in other words promotes the feeling that nothing is changing and simultaneously everything is In the midst of this paradoxical sense of constant flux and grinding stagnation underwritten by the notion that there is no alternative to the malaise of the present the nostalgic past emerges as the only viable refuge The Reflective Age investigates how nostalgic American media of the 2010s and early 2020s reflects and contributes to these conditions showing how the films TV shows music and literature of the period illustrate a radical shift in both the role that nostalgia plays in the American cultural and political landscape as well as in nostalgia itself **Catalogue of Books Exclusive of Prose Fiction in the Central Lending Library** Leeds (England). Science-fiction Studies ,2007 The X-files and Literature Sharon R. Yang,2007 The X Files and Literature

Unweaving the Story Unraveling the Lie to find the Truth provides an innovative and valuable exploration of the groundbreaking television program. Although much academic work has been devoted to the social psychological and spiritual significance of *The X-Files* until this collection none has fully addressed the series' rich adaptation of literature to interrogate our perception definition or recounting of the oetruth. This collection not only unveils new twists and insights into expected connections between *The X-Files* and Gothic writers or with its modernist and postmodernist slants on narrative, plot and characterization. *The X-Files* and Literature also delves into some unexpected literary sources shaping the series such as the Arthurian quest, Catholic and Biblical mythology, folkloristics and James Fenimore Cooper and the oevanishing American mythos. This collection of essays covers both how *The X-Files* works with literature, its own constantly morphing definition and portrayal of truth through form and content as well as how the television program may or may not subvert our own contradictory expectations and distrust of literature. Its providing us with enlightenment. As television becomes more and more literary with shows like *Lost* and *Gilmore Girls* sending us off to the bookstore and the library so we might read them more carefully a book like *The X-Files* and Literature is welcome indeed. Sharon R. Yang's diverse collection on one of Nineties' TV's richest texts finds the truth of the gothic and the Arthurian and the folkloric of the postmodern and the metafictional of Poe, Pynchon, Cooper, Nabokov and Tennyson not just oeout there but in the perhaps too complicated narrative of the perpetually frustrated quests of Mulder and Scully. Valuable in itself as an intellectual exercise its real worth may come when we put the book down and return smarter better readers to the primary text. David Lavery Co-Editor Deny All Knowledge Investigating *The X-Files*. Sharon Yang's *X-Files* collection deals with an important subject addressed by thoughtful writers. The idea that television can be seen as a branch of literature is certainly sustained by *The X-Files* and the contributors to this volume succeed in making the case. Brian Hauser on Fenimore Cooper, Cary Jones on Mary Shelley, Tammy Burnett on Poe, Thomas Argiro on Pynchon, Matthew Van Winkle on Tennyson, these and more explore the connections with *The X-Files* not only in terms of sources but also themes and techniques. Both students of television and literature will want to own this book. Rhonda V. Wilcox Ph.D. Professor of English, Gordon College, Barnesville, **Valve World**, Justin Wallace, McEachren, 1926
