performing videos

will show you the details for that specific video: total views, its completion rate (how many watched watching your video) to how you compare to other creators, how many new followers you've gained, and where your views come from (for 'You' page, for example.)

When it's so valuable, look at your best-performing videos and your worst-performing videos. What's the difference? Do your viewers tend to drop out of videos all the way through, but not at the beginning? Or maybe your viewers do prefer short because it's so valuable and you've seen until the end.

Look at your analytics weekly and monthly on your best and worst performing videos and pay attention to completion rate, shares, and comments.
