Reading Picture Books with Children Megan Dowd Lambert, 2015-11-03 A new interactive approach to storytime The Whole Book Approach was developed in conjunction with the Eric Carle Museum of Picture Book Art and expert author Megan Dowd Lambert's graduate work in children's literature at Simmons College offering a practical guide for reshaping storytime and getting kids to think with their eyes Traditional storytime often offers a passive experience for kids but the Whole Book approach asks the youngest of readers to ponder all aspects of a picture book and to use their critical thinking skills Using classic examples Megan asks kids to think about why the trim size of Ludwig Bemelman's *Madeline* is so generous or why the typeset in David Wiesner's Caldecott winner *The Three Pigs* appears to twist around the page or why books like Chris Van Allsburg's *The Polar Express* and Eric Carle's *The Very Hungry Caterpillar* are printed landscape instead of portrait The dynamic discussions that result from this shared reading style range from the profound to the hilarious and will inspire adults to make children's responses to text art and design an essential part of storytime [Getting Ready to Read](#) Betty D. The Rural Educator ,2010 **Thinking and Learning through Children's Literature** Miriam G. Martinez,Junko Yokota,Charles Temple,2017-04-18 Much of teachers attention these days is focused on having students read closely to ferret out the author s intended meaning and the devices used to convey that meaning But we cannot forget to guide students to have moving engagements with literature because they need to make strong personal connections to books of merit if they are to become the next generation of readers literate people with awareness of and concern for the diversity of human beings around them and in different times and places Fortunately guiding both students personal engagement with literature and their close reading to appreciate the author s message and craft are not incompatible goals This book enthusiastically and intelligently addresses both imperatives first surveying what is gained when students are immersed in literature then celebrating and explicating the main features of literature students need to understand to broaden their tastes and deepen their engagement at the same time they meet external standards then presenting a host of active methods for exploring all major genres of children s books and finally presenting suggestions for interdisciplinary teaching units grounded in literature Created by noted leaders in the fields of children s literature and literacy the book is enlivened by recurring features such as suggested reading lists issues for discussion links to technology and annotations of exemplary books

Greater Expectations Eve Bearne,1995-11-01 The first two sections of this work consider two questions what does children s writing reveal about their reading experience and competence and how can teachers help children to become more careful and critical readers of their own and other people s writing In the third section these questions are placed in a theoretical frame which tackles some of the more fundamental issues of culture language diversity and gender the relationship between oracy and literacy and how best to help children for whom literacy is a struggle The final section gives some practical guidance for developing a full and successful literacy curriculum
