Alternate History Novel Framework:

Alternate History Kathleen Singles, 2013-10-14 While strictly speaking Alternate Histories are not Future Narratives their analysis can shed a clear light on why Future Narratives are so different from past narratives Trying to have it both ways most Alternate Histories subscribe to a conflicting set of beliefs concerning determinism and freedom of choice contingency and necessity For the very first time Alternate Histories are here discussed against the backdrop of their Other Future Narratives The volume contains in depth analyses of the classics of the genre such as Philip K Dick's *The Man in the High Castle* and Philip Roth's *The Plot against America* as well as less widely discussed manifestations of the genre such as Dieter Kuhn's *N* Christian Kracht's *Ich werde hier sein im Sonnenschein und im Schatten* and Quentin Tarantino's film *Inglourious Basterds*

Existential Science Fiction Ryan Lizardi, 2022-01-05 This book explores contemporary existential science fiction media including film television and video games and their influence on society's conceptions of memory identity and humanity Most poignantly Ryan Lizardi argues are the ways in which a recent cluster of science fiction media including *Gravity* 2013 *Interstellar* 2014 *Legion* 2017 2019 *Westworld* 2016 present *SOMA* 2015 and *Death Stranding* 2019 among others present a vision of the future that is inextricably tied to an exploration of humanity that is more contemplative and comparative than traditional science fiction The combination of the existential nature of this current trend in science fiction with the genre's ability to manifest these abstract concepts in a generic environment that is historically focused on new frontiers and ideas creates a powerful set of media texts that ask audiences to contemplate what it means to exist think and connect as human beings Scholars of media studies film studies television studies genre studies and philosophy will find this book particularly useful

Science Fiction and the Historical Novel Ian P. MacDonald, Kate Polak, 2024-09-16 If you woke to realize that you could rewrite your yesterday without knowing the kind of tomorrow it would grant you would you do it Are the authors of our destiny working with an outline or spit balling confusing plotlines Since the past changes possible futures to what alighting butterfly should we pay the most heed This book explores the liminal space between speculative fiction and the historical novel Staged as a transnational multicultural conversation it takes up a call originally made by Fredric Jameson in *Archaeologies of the Future* wherein he describes that flashpoint between speculative and historical genres as the symptom of a mutation in our relationship to historical time itself Drawing together postcolonial feminist cultural Indigenous and cognitive approaches *Science Fiction and the Historical Novel* asks what the past can offer a future oriented world and how the future can be imagined in relation to a past that seeks narratives of inevitability rather than possibility Engaged with the idea of the past as a model for the future authors in this volume probe the extent to which historical scripts delimit possibilities and how authors engaged with the practice of alternative pasts rewrite potentialities in the present
