Enduring Innocence Keller Easterling, 2007-09-28 How outlaw spatial products resorts information technology campuses retail chains golf courses and ports act as cunning pawns in global politics In *Enduring Innocence* Keller Easterling tells the stories of outlaw spatial products resorts information technology campuses retail chains golf courses ports and other hybrid spaces that exist outside normal constituencies and jurisdictions in difficult political situations around the world These spaces familiar commercial formulas of retail business and trade aspire to be worlds unto themselves self reflexive and innocent of politics But as Easterling shows in reality these enclaves can become political pawns and objects of contention Jurisdictionally ambiguous they are imbued with myths desires and symbolic capital Their hilarious and dangerous masquerades often mix quite easily with the cunning of political platforms Easterling argues that the study of such real estate cocktails provides vivid evidence of the market s weakness resilience or violence *Enduring Innocence* collects six stories of spatial products and their political predicaments cruise ship tourism in North Korea high tech agricultural formations in Spain which have reignited labor wars and piracy in the Mediterranean hyperbolic forms of sovereignty in commercial and spiritual organizations shared by gurus and golf celebrities automated global ports microwave urbanism in South Asian IT enclaves and a global industry of building demolition that suggests urban warfare These regimes of nonnational sovereignty writes Easterling move around the world like weather fronts she focuses not on their blending their global connectivity but on their segregation and the cultural collisions that ensue *Enduring Innocence* resists the dream of one globally legible world found in many architectural discourses on globalization Instead Easterling s consideration of these segregated worlds provides new tools for practitioners sensitive to the political composition of urban landscapes On the Edge of Scarcity Michael N. Dobkowski, Isidor Wallimann, 2002-02-01 Modernization and Industrialization have presented the human race with many problems inflicting deprivation poverty war and premature death on millions of people Until recently however solutions were achievable Drawn from the much acclaimed *Coming Age of Scarcity* and adapted here for general classroom use this work will be an ideal introduction to courses in population environment and resources genocide studies and social conflict As we enter the twenty first century several components converge namely population land for cultivation energy resources and environmental carrying capacity Michael N Dobkowski and Isidor Wallimann establish a realistic projection of the disastrous future that awaits humankind as surplus populations collide with dwindling resources Scholars from a variety of disciplines investigate the problems and suggest ways to maximize individual and collective survival discussing cause and effect scenarios concerning industrialization biophysical limits exponential population growth and genocide Earth Day John McConnell, 2011-07-22 After a half century of activism John McConnell the true founder of Earth Day here relates his global promotion of peace justice and Earth care Following the Kennedy assassination McConnell s Minute for Peace gained worldwide attention This led to his Earth Day and other initiatives aimed at promoting people and

planet In this book he shares the views that garnered support during the environmental movement from 1969 onward and that have inspired followers for forty years at annual Earth Day ceremonies at the UN and cities across the globe John McConnell coined the term Earth Day in 1968 proposed its celebration on the spring equinox to the City of San Francisco in October 1969 and announced it in November at a UNESCO Conference The City responded by hosting the first Earth Day on March 21 1970 Margaret Mead UN Secretary General U Thant President Ford and thirty three Nobel laureates supported McConnell s Earth Day and thirty six worldwide dignitaries signed McConnell s Earth Day Proclamation supporting Earth Day on the spring equinox an annual planetary holiday linking people everywhere without regard to politics culture national border or religion In 1957 after Sputnik McConnell promoted the Star of Hope a satellite devoted to peace This effort sparked his origination of Earth Day the Earth Flag Earth Trustees and the Earth Magna Charta He worked with UN officials and other leaders to overcome differences and build common ground for peace aiming to ensure our planet s future and human survival This book chronicles his global mission his life journey and his unique contributions toward a peaceful and cherished planet

Cancel The Apocalypse Andrew Simms,2013-02-28 Ever get the feeling that things are falling apart You re not alone From bad banks to global warming it can all look hopeless but what if everything could turn out well even better than before What if the only thing holding us back is a lack of imagination and a surplus of old orthodoxies In fascinating and iconoclastic detail on everything from the cash in your pocket to the food on your plate and the shape of our working lives Cancel the Apocalypse describes how the relentless race for economic growth is not always one worth winning how excessive materialism has come at a terrible cost to our environment and hasn t even made us any happier in the process Simms believes passionately in the human capacity for change and shows how the good life remains in our grasp While global warming and financial meltdown might feel like modern day horsemen of the apocalypse Simms shows how such end of the world scenarios offer us the chance for a new beginning

engaging sense of humor he wrote dozens of articles letters sermons and diatribes on topics ranging from global climate change to the benefits of not smoking Running throughout all his writings was his belief that the earth's long term health could only be assured if we its inhabitants changed our behavior And he firmly believed we had the means and the will to do so Ed Myers saw the humor in almost everything that happened but he was deadly serious about saving the planet and turning it over to successive generations in better shape than he found it Nobody forgot Ed Myers or his message So we are presently engaged in a gigantic planetary chemical experiment to see how much CO₂ and its global effects we can stand When the experiment is complete there won't be anybody around to report on it The Creation in writer Annie Dillard's phrase will be playing to an empty house This dreary prospect does not have to happen At the end of the nineteenth century we made a choice or rather had it made for us We would run the world on fossil fuels It proved to be a very successful choice for a runaway industrial society and worked well in its own way for about a century But for the long term the choice was in a word lousy Now we have a chance to turn it around Our only chance Additional commentary and updates are provided by Peter Shelley Conservation Law Foundation Don Hudson Chewonki Foundation Tom Chappell Tom's of Maine Robin Alden and Melissa Waterman

Paradise for Sale Carl N. McDaniel, John M. Gowdy, 2000-01-28 The grim history of Nauru Island a small speck in the Pacific Ocean halfway between Hawaii and Australia represents a larger story of environmental degradation and economic dysfunction For more than 2 000 years traditional Nauruans isolated from the rest of the world lived in social and ecological stability But in 1900 the discovery of phosphate an absolute requirement for agriculture catapulted Nauru into the world market Colonial imperialists who occupied Nauru and mined it for its lucrative phosphate resources devastated the island which forever changed its native people In 1968 Nauruans regained rule of their island and immediately faced a conundrum to pursue a sustainable future that would protect their truly valuable natural resources the biological and physical integrity of their island or to mine and sell the remaining forty year supply of phosphate and in the process make most of their home useless They did the latter In a captivating and moving style the authors describe how the island became one of the richest nations in the world and how its citizens acquired all the ills of modern life obesity diabetes heart disease hypertension At the same time Nauru became 80 percent mined out ruins that contain severely impoverished biological communities of little value in supporting human habitation This sad tale highlights the dire consequences of a free market economy a system in direct conflict with sustaining the environment In presenting evidence for the current mass extinction the authors argue that we cannot expect to preserve biodiversity or support sustainable habitation because our economic operating principles are incompatible with these activities
