Dairy Ingredients for Food Processing Ramesh C. Chandan, Arun Kilara, 2011-03-15 The objective of this book is to provide a single reference source for those working with dairy based ingredients offering a comprehensive and practical account of the various dairy ingredients commonly used in food processing operations. The Editors have assembled a team of 25 authors from the United States Australia New Zealand and the United Kingdom representing a full range of international expertise from academic industrial and government research backgrounds. After introductory chapters which present the chemical physical functional and microbiological characteristics of dairy ingredients the book addresses the technology associated with the manufacture of the major dairy ingredients focusing on those parameters that affect their performance and functionality in food systems. The popular applications of dairy ingredients in the manufacture of food products such as dairy foods bakery products processed cheeses processed meats chocolate as well as confectionery products functional foods and infant and adult nutritional products are covered in some detail in subsequent chapters. Topics are presented in a logical and accessible style in order to enhance the usefulness of the book as a reference volume. It is hoped that *Dairy Ingredients for Food Processing* will be a valuable resource for members of academia engaged in teaching and research in food science regulatory personnel food equipment manufacturers and technical specialists engaged in the manufacture and use of dairy ingredients. Special features Contemporary description of dairy ingredients commonly used in food processing operations. Focus on applications of dairy ingredients in various food products. Aimed at food professionals in R D QA QC manufacturing and management. World wide expertise from over 20 noted experts in academe and industry
