Turbulence Across the Sea Elie Baranets, Andrew R. Novo, 2024-11-07 Great Power competition is back On the two sides of the Atlantic however this concept often means different things While the United States is focused on China Europe is preoccupied with Russia Yet shifting American priorities toward Asia requires reconceptualizing the future role of NATO In Europe this shift has led to serious thought about how to achieve strategic autonomy that will allow Europe to guarantee its own security regardless of strategic choices made in Washington As Chinese strategy focuses on dividing European actors and making them more economically dependent on Beijing these developments may undermine Washington's influence in Europe while limiting potential European action against Chinese interests With a mix of research methodologies applied by scholars from both sides of the Atlantic Turbulence Across the Sea offers a comprehensive analysis of relations among European and North American actors in the context of strategic competition among the United States Europe Russia and China In doing so it demonstrates that a reaffirmation of transatlantic cooperation is necessary to maintain security in the face of aggressive moves by both Russia and China By analyzing attitudes from the perspective of both the various actors Britain France Germany and the European Union and various sectors intelligence cooperation foreign direct investments technology and the defense industry this book provides readers with a comprehensive perspective on the challenges and opportunities in the shifting landscape of security in the twenty first century

**Design & Applied Arts Index**, 1994

The Economist, 1984    Annual Index, 1985    **4 Mexican Paper Crafts: Simple and Fun Craft Tutorials Inspired by Mexican Artisan Paper Decorations** Ellen Deakin, Harry Olden, 2014-08 Description The Mexican tradition of paper crafting dates back to pre Hispanic times when the Aztecs made paper from tree bark called Amate With the Spanish conquest brightly colored tissue paper or Papel de China arrived on trading boats from the Phillipines and was used in paper crafts Pinatas papel picado and paper flowers are important in the festivities of Cinco de Mayo and Dia de los Muertos and are also used to decorate birthday parties weddings and baby showers amongst other celebrations From the beginning of Happythought we have been inspired by the beauty and simplicity of these Mexican paper crafts We have really enjoyed trying our hand at creating our own with satisfying results Now we have put together four of our favorite paper craft tutorials for you try in one book The techniques we have used are not always traditional the projects are designed to be easy to make and use materials that you hopefully already have at home or in your craft box The crafts are also designed with little fingers in mind most of the activities are easy enough for a child to complete with a little adult supervision Tutorials How to make a paper star These stunning ornaments are partly inspired by Mexican star pinatas and partly by the beautiful Moravian tin star lanterns made by Mexican artisans You could also attach your star decorations to a string of fairy lights to make a garland of teeny tiny star lanterns We have provided three colorful templates for you to use or why not create your own using the black and white template as a starting point How to make paper flowers These simple paper flowers are fun to make and

so easy that the whole family can get involved. They can be used to decorate a party or Cinco de Mayo celebration arranged in vases or as a centerpiece at a wedding or placed on an ofrenda for Dia de los Muertos. You could also attach one or two flowers to a bobby pin or hair band and create a decorative hair piece. How to make papel picado. Papel picado means punched or perforated paper and traditionally papel picado are made from colored tissue paper and cut using chisels. We wanted to simplify the perforated paper technique so that you could create papel picado with household scissors and after a bit of experimentation we came up with this easy method of producing your own stunning papel picado. We made ours using crepe paper as it comes in lovely vibrant colors and we found it much easier to handle than tissue paper which tends to tear. It also means that your papel picado last longer so you can use them again next year. How to make a mini pinata. Ever since we moved our family to South America we have all fallen head over heels for pinatas so it wasn't long until we felt compelled to try making one of our own. Traditionally you beat a pinata with a stick until it exploded and all the yummy shiny contents fell to the ground. Now days as a safer option pinatas often come with a string which you pull down on to release the contents. We wanted to make a fully functioning mini pinata so ours too has a pull string. It's been tried and tested by our children so we can report that it works beautifully. Templates. If you would like to use the templates shown in the tutorial photos they are all free with the book to download from the Happythought website. We have also included templates in this book which you can photocopy and scale up to use for your projects. Copy by hand or use as inspiration for your own designs.
