Corporate Risks and Leadership Eduardo E. Mariscotti, 2020-05-13 The

context of business has been changing for companies in recent years and following numerous corporate and accounting scandals many countries have increased the number of national and international regulations designed to ensure transparency and compliance with the law. Because of the existence of these new regulations the level of control the severity of sanctions by governments and the amount of the fines for noncompliance have increased dramatically. In parallel with the technological revolution in communications business management has become more transparent and any negative event is uploaded to social networks and shared with an indeterminate number of people. This change in the regulatory sanctioning and technological context has forced large companies to rethink risks investments and budgets to deal in this more complex environment. To transition to this change some companies have included ethics and compliance programs in their corporate agenda along with marketing and sales plans strategies growth targets investment plans and or talent acquisition. While each industry has its particular risks in this book the author describes the essential elements that any effective ethics and compliance program should contain. This book is a source of information that connects yesterday with today. The author shares observations and lessons of the past to suggest corporate leaders implement effective ethics and compliance programs to protect their organizations and themselves. The book covers theories of ethics but with an eye focused on practical application. Risks ethics and compliance are analyzed with an overall vision connected to the reality of business life without getting bogged down in abstract thinking or in technical and regulatory details. Ethics and compliance are disciplines that have increasingly achieved greater recognition in organizations. Thus due to the importance of risk management in the business world and the necessary involvement of the CEO and the board of directors it seems appropriate that executives get access to a book about risks ethics compliance and human resources directed not only to compliance experts but also to any organizational leader. This book is a wake up call that allows business leaders to understand the benefits of implementing an effective ethics and compliance program that will help members of organizations to make the right decisions and act within the law. If they do they can better prevent and react to the difficult obstacle course of risks dangers and threats that organizations face and that may jeopardize the sustainability resilience and survival of companies.

Innovation and Entrepreneurship Charles H. Matthews, Ralph Brueggemann, 2015-03-12. This book presents a new model the competency framework for students innovators entrepreneurs managers and anyone who wants to better understand the dynamic world of innovation and entrepreneurship. Focused on both the individual and strategic organizational level this book is about people and the competencies each person needs to learn to be successful in creating a more dynamic future. Matthews and Brueggemann's framework for innovation and entrepreneurship competencies empowers individuals to excel at innovation and new venture creation. It provides a practical guide and clear and concise understanding of the knowledge skills attitudes and experiences that are needed to increase imagination creativity innovation and new venture creation capability. Innovation and Entrepreneurship will be attractive for students of entrepreneurship innovation management and cross disciplinary

classes such as design thinking Presented in a modular format Innovation Entrepreneurship informs the future direction of people and technology as well as the educational systems producing the next generation of innovators and entrepreneurs Based on extensive academic research this book is organized into two sections Twelve innovation elements and twelve competency categories The elements are the foundation and the competency categories are the building blocks that inform our path toward a more precise understanding of how innovation and entrepreneurship plays an important role in economic development and our daily lives
