2025 Edition Alien Invasion Fiction:

Masculinities in Contemporary Science-Fiction Television Sara Martín, Michael Pitts, 2025-11-13 Through a comprehensive analysis of popular contemporary science fiction television series this book underscores the genre's unique potential to both reflect and shape cultural perceptions of masculinity. Each of its essays, written by a host of international contributors, analyses key series ranging from *Firefly* (2002) to *Star Trek: Picard* (2020-23). Employing anti-patriarchal and pro-feminist perspectives, they scrutinize the limited diversity among male characters in science fiction television, shedding light on the underrepresentation of non-heteronormative, non-white and transmasculine characters, while also highlighting notable exceptions such as *Altered Carbon* (2018-20), *Doom Patrol* (2019) and *The Umbrella Academy* (2019). Against the backdrop of current discussions regarding toxic masculinity, this book highlights the ways in which divergent masculinities shape and are shaped by the science fiction genre. In doing so, it argues the significant role played by the genre in ongoing discourse surrounding traditional and alternative forms of masculinity.

The Horror Film Rick Worland, 2024-09-16 A lively and reliable narrative account of the horror genre featuring new and revised material throughout. *The Horror Film: An Introduction* surveys the history, development and social impact of the genre. Covering American horror cinema from its earliest period to the present, this reader-friendly volume explores the many ways horror movies have been received by filmmakers, critics and general audiences throughout the decades. Concise, easily accessible chapters describe historical instances of the genre's social reception based on primary research, analyze landmark films such as *Frankenstein*, *Invasion of the Body Snatchers* and *The Texas Chain Saw Massacre*, and more. Incorporating recent scholarship on the genre, the second edition of *The Horror Film* contains new discussion and context for Hollywood horror films in the 1980s and 1990s, as well as notable developments in the genre such as torture porn, found footage horror, remakes and reboots of past horror films, zombies and the elevated horror debate. This edition explores the rise of new filmmakers such as Ari Aster, Robert Eggers and Jordan Peele, surveys horror films made by women and African American filmmakers, and investigates contemporary issues in the production and consumption of horror films. Combining historical narrative with close readings of significant works, *The Horror Film* covers major works in the genre such as *Cat People*, *Halloween* and *Bram Stoker's Dracula*. Examines important antecedents including gothic literature and the Grand Guignol Theater. Offers thorough analyses of the style, context and themes of specific horror milestones. Provides examples of close analysis that can be applied to a wide range of other horror films. Discusses important representative titles across the genre's evolution, including more recent films such as 2017's *Get Out*. *The Horror Film: An Introduction, Second Edition* is an ideal textbook for undergraduate surveys of the horror genre and other courses in American film history, and an invaluable resource for scholars, lecturers and general readers with an interest in the subject.

tell yourself you'll be at for six months and then blink and it has been six years. The type of place that takes over your brain and makes you one of the drones. He hates his boss. He has a friend he relaxes with between calls. He sits near a nice girl named Amanda. He's been thinking about asking out. All said Jason has a stereotypical case of the Call Center Blues and he doesn't see it getting better any time soon. That changes the moment he realizes that his job isn't like every other; it's run by an evil group of alien invaders infiltrating the human race with body-snatching parasitic organisms that actually are taking over his brain. Jason must become more than he was in order to stop the threat of invasion to his planet. He thought the company he worked for was unremarkable, but they thought the same of him. They both made a terrible mistake. Can Jason become what he needs to to save his friends and his world?

The Serene Invasion Eric Brown, 2013-04-30 In 2025 the Serene arrive from Delta Pavonis V and change mankind's destiny forever. The gentle aliens bring peace to an ailing world, a world riven by war, terrorism, and poverty, by rising conflicts over natural resources and offering an end to need and violence. But not everyone supports the seemingly benign invasion. There are those who benefit from conflict, who cherish chaos, and they will stop at nothing to bring back the old days. When Sally Walsh is kidnapped by terrorists and threatened with death, it seems that only a miracle can save her life. Geoff Allen, photo journalist, is contacted by the Serene and offered the opportunity to work with the aliens in their mission. For Sally, Geoff, and billions of other citizens of Earth, nothing will ever be the same again.

Alien Orders Johnnie West, 2022-02-07 Do you know the four types of aliens that have hidden themselves amongst governments and armed services throughout the world? No. Well, neither did Air Force Captain Scott Ryan until one night when he encountered a UFO while flying a training mission and was ordered by his superiors to forget what he saw. When Scott learns that airmen at his base had been experiencing the same thing he did for years, he ignores the order and begins digging deeper. Scott's investigation quickly snowballs from innocent research into revelations of a covert war between humans and aliens and a full-blown government conspiracy and coverup. With a group of aliens known as the Naturals going extinct, they are creating more and more alien-human hybrids to ensure their survival, a process that threatens human free will and existence. With the survival of both humans and aliens at stake, Captain Ryan suddenly becomes the only man with enough knowledge to stop the Naturals or to join them. Winner of two 2022 BookFest awards recognizing best science fiction and fantasy books and a 2022 Literary Titan Book Award.
