### **The Impacts of Language and Literacy Policy on Teaching Practices in Ghana** Philomena Osseo-Asare, 2021-03-15

This text critically examines changes in Ghanaian language and literacy policy following independence in 1957 to consider its impacts on early literacy teaching. By adopting a postcolonial theoretical perspective, the text interrogates the logic behind policy changes which have prioritised English local language or biliteracy. It draws on data from interviews with teachers and researcher observation to demonstrate how policies have influenced teaching and learning. Dr Osseo Asare's findings inform the development of a conceptual framework which highlights the socio cultural factors that impact the literacy and biliteracy of young children in Ghana, offering solutions to help teachers combat the challenges of frequent policy changes. This timely monograph will prove to be an essential resource not only for researchers working on education policies, teacher education and English language learning in postcolonial Ghana, but also for those looking to identify the thematic and methodological nuances of studying literacy and education in postcolonial contexts.

### **Community Participation in School Management**

Kazuro Shibuya, 2022-09-12. Nobody denies that trust in schools is key to success in generating any educational outcomes. However, trust is often eroded, resulting in conflicts, alienation and differentiation among school level stakeholders. This book analyses school based management (SBM) of education through the lens of relational trust in the context of Ghana, revealing how community participation in school management leads to educational outcomes. Conducting quantitative analysis of headteacher questionnaires from public basic schools and qualitative analysis of case study schools in the Akatsi South District of Ghana, Shibuya offers critical insights into building sustainable relationships between individual households and geographical school communities. He argues it is critical to highlight relational trust as an analytical tool to examine relationships between actors and factors in school management. The research finds that trust in schools is a two way mechanism and the mutuality of expectations and obligations among stakeholders is essential if children's learning outcomes are to improve. With its mixed methods approach, this book will be a valuable resource for scholars in comparative education, those in educational development and those interested in African contexts.
