Shinn, 2018-09-03 Most leadership literature stems from and focuses on the private sector emphasizing personal qualities that bind leaders and followers to a shared purpose As the authors of New Public Leadership argue if these shared purposes do not build trust and legitimacy in public institutions such traditional leadership tropes fall short of the standard demanded by contemporary public servants For twenty years the authors have been developing a leadership education and training framework specifically designed to encourage public service professionals to lead from where they sit This book presents that comprehensive integrated and practical leadership framework grounded in the uniqueness of public legal missions culture history and values The authors explore three key elements of leadership success 1 an understanding of our public service context including the history the values and the institutions that comprise our leadership setting 2 a set of tools designed to help leaders initiate collective action in wicked challenge settings and 3 tools to support sound judgment enabling leaders to do the right thing in the right circumstances for the right reasons The authors further provide readers with a basic understanding of democratic institutions encouraging them to work within and across multiple vertical and horizontal systems of authority The book is organized into four sections each of which is accompanied by a Master Case that provides the reader with an opportunity to apply the principles and leadership tools discussed in the text to practice To further reinforce the practice centered approach to leadership knowledge and skills the authors have developed an accompanying EMERGE Leadership Handbook complete with exercises available online Written specifically with the practicing public manager in mind this book arms public servants with a large repertoire of leadership skills designed to accommodate changing public values and conflicting priorities at all levels of our public organizations
