Scale And Arpeggio Album Cello:

Scale and Arpeggio Album for the Violoncello , **A Guide to Practicing David Popper'S 'Hohe Schule' Etudes**
Benjamin Whitcomb,2018-08-31 There are few works in the cello repertoire as significant as the etudes by David Popper
They are practiced studied and learned by cellists all over the world as a sort of rite of passage to the advanced cello
techniques This has been the case since their publication and there is no sign that this is going to change in the foreseeable
future Auditions for such things as youth orchestras festivals competitions or university admissions frequently require the
performance of one or more Popper etudes Learning these etudes is a wonderful way to prepare yourself for the advanced
cello repertoire However tackling them on your own can be a daunting task Several authors have published their ideas and
suggestions for practicing these etudes whether as articles books or videos What makes this guide different is that it shows
you step by step exactly how you can effectively practice all the difficult spots in each etude such that you will surely learn
and master each one at a faster rate than you would without these suggestions and exercises **The Strad** ,1894
