Information

Philosophy: Fluid

With this philosophy, players are expected to contribute to more phases of play than with the balanced philosophy.

The team is split into broad attacking and defensive units with the more creative players responsible for the attacking phase and the more defensively disciplined players responsible for the defensive phase. However, players from each unit are expected to move into the transition phase when the right opportunity arises.

The team will be encouraged to play more fluidly, football with players allowed more creative freedom.
