

## IED Review topics for PLTW EOC

No students are exempt from this EOC exam and my final exam. I have posted on the class calendar the dates for your PLTW EOC. There is a narrow window for this test so if you will be out for that date – please let me know as soon as you know. The PLTW EOC is online and you will be given only a formula sheet. You can use your own calculator or the one in the exam and I will have some to use. Students who score a 6 or better get of 9, and maintain an 85 in the class can apply for college credit for the class. I will send out details for this process in May. The score on this exam along with additional components given on PISD Exams days will be used to determine your final exam grade. Students will need to complete both parts to pass the final exam grade for the spring semester.

Topics in the sections listed above: there are more topics listed in these sections but I will list the key topics that I have seen emphasized on the test. Use your MyPLTW for Powerpoint presentations.

*Student-Led Peer Review* Kimberly A. Lowe, Liv Cummins, Summer Ray Clark, Bill Porter, Lisa Spitz, 2023-07-03 Student-led peer review can be a powerful learning experience for both giver and receiver, developing evaluative judgment, critical thinking, and collaborative skills that are highly transferable across disciplines and professions. Its success depends on purposeful planning and scaffolding to promote student ownership of the process. With intentional and consistent implementation, peer review can engage students in course content and promote deep learning while also increasing the efficiency and effectiveness of faculty assessment. Based on the authors' extensive experience and research, this book provides a practical introduction to the key principles, steps, and strategies to implement student peer review, sometimes referred to as peer critique or workshopping. It addresses common challenges that faculty and students encounter. The authors offer an easy-to-follow and rigorously tested three-part protocol to use before, during, and after a peer review session, and advice on adapting each step to individual courses. The process is applicable across all disciplines, content types, and modalities, face-to-face and online, synchronous and asynchronous. Instructors can guide students in peer review in one course, across two or more courses, or across programs or curriculums. When instructors, students, and university stakeholders create a culture of peer review, it enhances learning benefits for students and allows faculty to share pedagogical resources. Student peer review is a high-impact pedagogy that's easily implemented, inculcates lifelong learning skills in students, and relieves the assessment burden on faculty as students collaborate to improve their own work.
