Writing Effective Course Assignments Elia Shabani Mligo, 2017-05-11. Non degree and undergraduate students are both inexperienced essay writers who need close guidance to become effective writers. One of the puzzles which they encounter at the college and university after reporting for studies is the course assignments offered to them by their lecturers which demand them to be critical thinkers and argumentative essay writers. In most colleges and universities, lecturers provide to students broad questions to answer in the form of essays, either in group or individual assignments. How should they turn the broad assignment questions provided to them by their lecturers into specific researchable topics for essays? How should they handle literature in order to obtain valuable information to answer the provided question? How should they construct an informed and convincing argument using the collected information as evidence? This book concerns these and other related

questions With its clear illustrations the book is designed to be a self study guide and to offer solutions to many struggling students in colleges and universities At the same time the book can be helpful for lecturers to instruct their students how to write effective course assignments in their respective courses Subject Guide to Books in Print ,2001 **The Cumulative Book Index** ,1994 A world list of books in the English language *A Student Guide to Writing a Research Paper* Phyllis Goldenberg,1997 *Poets on Inventing* Jason Wirtz,2008 **Books in Print Supplement** ,2002
