First Published in 2005. The true folk riddle of oral traditions that have been rapidly disappearing from the face of the earth in the last hundred years is one of the most ancient threads of culture. One of the smallest genres of verbal culture usually under a dozen of words it is an intensely articulated utterance. It is eccentric and as such breaks every logical mould. This volume presents results of a study driven by the sheer intellectual curiosity of the author.

A Collection of Welsh Riddles Vernam Hull, Archer Taylor, 1942 *Text and Tradition* Susan Niditch, 1990

The essays in this volume explore connections between biblical and non biblical traditional literatures and test what may be learned from such a comparative and cross cultural enterprise. Contributors representing a wide range of disciplines explore the boundaries between biblical form criticism and the folklorist's study of formulicity and folk genres between the Bible scholar's emphasis on *Sitz in Leben* and the folklorist's study of culture and between the capacity of tradition to be both conservative and dynamic. Additional themes and methodological concerns include the movement from oral to written communication the aesthetics of traditional and non traditional works and the relevance of midrash for the study of folklore and the Bible.
