## Riddles About In Circulatory:

*Time and the Riddle* Howard Fast, 2011-12-27 A collection of Fast's best short fiction from science fiction and fantasy to philosophy and suspense. This collection of short stories encompasses twenty years of work by Howard Fast including some of his best known and most treasured tales. Not merely fantasy or science fiction, these Zen stories explore the world's mysterious and unanswerable questions, big and small, and the results are at once bizarre, humorous, chilling, and poignant. An American general shoots down what appears to be an angel during a Vietnam War battle; a celebrated author becomes a hunted man; and a mouse is granted human thought and emotion by a group of alien beings. The thirty-one stories in *Time and the Riddle* showcase Fast's range and supreme talent as a storyteller. This ebook features an illustrated biography of Howard Fast including rare photos from the author's estate.

*Women's Writing and the Circulation of Ideas* George Justice, Nathan Tinker, 2002-03-07

It was widely believed that women in Renaissance and early modern England either did not write or did not publish their work. It has become clear that instead of using the emerging technology of print, many women writers circulated their works by hand, with friends copying and recopying poems, plays, and novels from each other or with the help of professional scribes. Through manuscript publication, women's writing reached wide audiences and was collected and admired by both men and women. *Women's Writing and the Circulation of Ideas* contributes to the discovery and re-evaluation of women writers by examining the writing and manuscript publication of key authors from 1550 to 1800. The collection's analysis of the range and meaning of women's writing and manuscript publication during the rise of the print industry alters our understanding of the history of the book and early modern British literature alike.
