

# Rivers for the Future

Here at American Rivers, we are driven to make more and more rivers sources of health, prosperity, and joy — for everyone, no matter who you are or where you live. This is what our vision of the future looks like and how we'll get there, together.

**Restoring floodplains and wetlands** will improve vital wildlife habitat and keep communities safer against flooding.

**Protecting 1 million miles of rivers** will ensure fish and wildlife can access healthy upstream habitat as their homes grow hotter and drier.

**Protecting rivers and nature near where most people live** will make our communities more resilient to drought and flooding, and allow people to access the outdoors.

**Reversing the damage caused by hydropower dams** will dramatically improve aquatic species survival.

**Removing 30,000 harmful dams** will reverse decline of migratory wildlife and fish, and help keep water sources cleaner.

**Cleaning up pollution and ensuring communities have plentiful clean water** will improve our cities and the well-being of people who live in them.

**Making sure every river has a community of people speaking up for it** will make it possible to create a future of abundant, clean water for all of us.

**Advocating for laws that keep waters clean for drinking, fishing, and swimming** ensures rivers can be a gateway to health and recreation.

**Transforming urban rivers into healthy gathering spots for neighborhoods** will inspire the next generation of community leaders, artists, and visionaries.
