Religious Education in Malawi and Ghana Yonah Matemba, Richardson Addai-Mununkum, 2021-03-15 Religious Education in Malawi and Ghana contributes to the literature on opportunities and complexities of inclusive approaches to Religious Education RE It analyses how RE in Malawi and Ghana engages with religious pluralisation and provides a compelling case for the need to re evaluate current approaches in the conceptualisation curriculum design and delivery of RE in schools in Malawi and Ghana The book explains how a pervasive tradition of selection involving exclusion and inclusion of religion in RE leads to misrepresentation and in turn to misclusion of non normative religions where religion is included but marginalized and misrepresented The book contributes to wider discourse of RE on opportunities as well as complexities of post confessional approaches including the need for RE to avoid perpetuating the continued legitimisation of selected religions and in the process the delegitimization of the religious other as a consequence of misrepresentation and misclusion Inspired by Braten s methodology for comparative studies in RE the book draws on two qualitative studies from Malawi and Ghana to highlight the pervasive problems of religious misclusion in RE This book will be of great interest for academics scholars and post graduate students in the fields of RE African education educational policy international education and comparative education

Arts Management, Cultural Policy, & the African Diaspora Antonio C. Cuyler, 2022-06-15 This book centers people of African descent as cultural leaders to challenge the myth that they do not know how or care about managing and preserving their culture Arts Management Cultural Policy the African Diaspora also presents comparative case studies of the challenges differences similarities and successes in approaches to cultural leadership across multiple cultural contexts throughout the diaspora This volume disrupts the enduring and systemic global marginalization oppression and subjugation that threatens and undermines people of African descent s cultural contributions to humanity The most important distinguishing feature of the volume is its geographical use of the African diaspora to explore the subjects of arts management and cultural policy which to date no volume has done before Furthermore the volume s comparative examination of ten critical historical practical and theoretical questions makes it a significant contribution to the literatures in Arts Management Cultural Policy Cultural Africana African American and Ethnic studies *Daily Graphic*
