*Women's Monasticism and Medieval Society* Bruce L. Venarde, 2018-05-31 In this engaging work Bruce L Venarde uncovers a largely unknown story of women's religious lives and puts female monasticism back in the mainstream of medieval ecclesiastical history To chart the expansion of nunneries in France and England during the central Middle Ages he presents statistics and narratives to describe growth in broad historical contexts with special attention to social and economic change Venarde explains that in the years 1000-1300 the number of nunneries within Europe grew tenfold In the eleventh and twelfth centuries religious institutions for women developed in a variety of ways mostly outside the self-conscious reform movements that have been the traditional focus of monastic history Not reforming monks but wandering preachers bishops and the women and men of local petty aristocracies made possible the foundation of new nunneries In times of increased agrarian wealth decentralization of power and a shortage of potential spouses many women decided to become nuns and proved especially adept at combining spiritual search with practical acumen This era of expansion came to an end in the thirteenth century when forces of regulation and new economic realities reduced radically the number of new nunneries Venarde argues that the factors encouraging and inhibiting monastic foundations for men and women were much more similar than scholars have previously assumed

**The Letter Collection of Peter Abelard and Héloïse** Peter Abelard, Héloïse, 2013-08-22 The letters of Abelard and Héloïse contain a vivid account of one of the most celebrated love affairs in the western world that raised questions about love marriage and religious life in the Middle Ages This much-needed new edition of the Latin text contains English translation a full introduction extensive annotation and detailed indexes

*The World of Medieval Monasticism* Gert Melville, 2016 This book surveys the full panorama of ten centuries of Christian monastic life It moves from the deserts of Egypt and the Frankish monasteries of early medieval Europe to the religious ruptures of the eleventh and twelfth centuries and the reforms of the later Middle Ages Throughout that story the book balances a rich sense of detail with a broader synthetic view It presents the history of religious life and its orders as a complex braid woven from multiple strands individual and community spirit and institution rule and custom church and world The result is a synthesis that places religious life at the center of European history and presents its institutions as key catalysts of Europe's move toward modernity

A Companion to Hildegard of Bingen, 2013-10-17 This volume provides an introduction to Hildegard and her works with a focus on the historical literary and religious context of the seer's writings and music Its essays explore the cultural milieu that informs Hildegard's life and various compositions and examine understudied aspects of the magistra's oeuvre such as the interconnections among her works A Companion to Hildegard of Bingen builds on earlier studies and presents to an English speaking audience various facets of the seer's historical persona and her cultural significance so that the reader can grasp and appreciate the scope of the unparalleled life and contributions of

Hildegard who was declared to be a saint and a doctor of the Church in 2012 Contributors include Michael Embach Margot E Fassler Franz J Felten George Ferzoco William T Flynn Felix Heinzer Beverly Mayne Kienzle Tova Leigh Choate Constant J Mews Susanne Ruge Travis A Stevens Debra L Stoudt and Justin A Stover      **To Govern Is to Serve** Jacques Dalarun,2023-02-15 To Govern Is to Serve explores the practices of collective governance in medieval religious orders that turned the precepts of the Gospels most notably that the first will be last the last will be first into practices of communal deliberation and the election of superiors Jacques Dalarun argues that these democratic forms have profoundly influenced modern experiences of democracy in particular the idea of government not as domination but as service Dalarun undertakes meticulous textual analysis and historical research into twelfth and thirteenth century religious movements from Fontevraud and the Paraclete of Abelard and Heloise through St Dominic and St Francis that sought their superiors from among the less exalted members of their communities to chart how these experiments prefigured certain aspects of modern democracies those allowing individuals to find their way forward as part of a collective Wide ranging and deeply original To Govern Is to Serve highlights the history of the reciprocal bonds of service and humility that underpin increasingly fragile democracies in the twenty first century      **The Grove Encyclopedia of Medieval Art and Architecture** Colum Hourihane,2012 This volume offers unparalleled coverage of all aspects of art and architecture from medieval Western Europe from the 6th century to the early 16th century Drawing upon the expansive scholarship in the celebrated Grove Dictionary of Art and adding hundreds of new entries it offers students researchers and the general public a reliable up to date and convenient resource covering this field of major importance in the development of Western history and international art and architecture
