rise into the professional elite At the same time meritocracy now ensnares even those who manage to claw their way to the top requiring rich adults to work with crushing intensity exploiting their expensive educations in order to extract a return All this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy s successes This is the radical argument that Daniel Markovits prosecutes with rare force Markovits is well placed to expose the sham of meritocracy Having spent his life at elite universities he knows from the inside the corrosive system we are trapped within Markovits also knows that if we understand that meritocratic inequality produces near universal harm we can cure it When The Meritocracy Trap reveals the inner workings of the meritocratic machine it also illuminates the first steps outward towards a new world that might once again afford dignity and prosperity to the American people **Get Ready for 3rd Grade Math** Sylvan Learning,2020-06-23 GET READY TO HEAD BACK TO CLASS Prepare your child for 3rd grade with this math workbook full of fun engaging exercises and activities designed to refresh kids on what they need to know before returning to school Parents you know that disruptions whether for summer break vacations or other reasons can put your child s education on pause By adding just a few pages per day of material learned in the prior grade into kids routines you can help your child keep their skills fresh and set them up success for when they return to the classroom The exercises and activities in Get Ready for 3rd Grade Math are drawn from our top selling SUMMER SMART workbook series designed to combat summer learning loss Inside you ll find Links to download printable versions of activities with physical components coloring tracing 50 pages of teacher created learning exercises to reinforce math skills your child should know going into 3rd grade Fun engaging activities that feel like play With Sylvan Learning you don t have to compromise between entertainment and education Your child will love the great mix of activities stories and games in these pages You ll love seeing their improved confidence and newfound love of learning **Detracking in Practice** Beth Cara Rubin,2001 **Summer Math Workbook | 2-3 Grade Bridge Building Activities** Summer Bridge Building,2024-06 *New York State Mathematics Teachers Journal* ,1980
