**Risky Business** Lawrence S. Powell, 2013-02-01 Today s insurance regulation in the United States is at a crossroads while some segments of the insurance industry are moving away from a state based approach toward regulation others favor a greater role for the federal government despite the opposition from other stakeholders Written by leading scholars in risk management this book addresses some of the most important questions facing the future of state and federal regulation of the insurance industry Insurance regulation in the United States is at a crossroads It used to be a given that the insurance industry would resist efforts to move away from state based approaches toward regulation but no more Some now favor a

greater role for the federal government while others oppose calls to transition to a federal system In any case might not a competitive and innovative system of free market insurance be preferable to best serve the interests of consumers The current debate over insurance regulation is increasingly a struggle between competing interest groups and opposing ideologies about the proper scope of government a conflict that affects individuals decisions about how much risk to undertake whether those decisions involve driving a motorcycle in dense urban traffic or building a home in a flood fire hurricane or other high risk zone But what types of reforms would best serve the interests of consumers And what lessons can be learned from previous reform efforts In *Risky Business Insurance Markets and Regulation* edited by Lawrence S Powell leading scholars in risk management address some of the most important questions about the future of insurance regulation and the potential for market based alternatives The book examines not only the impetus behind various reform proposals but also the historical development of insurance regulation in the United States In so doing *Risky Business* examines alternative regulatory and deregulatory frameworks used in the United States and in the European Union and whether such options are beneficial or not

*Insurance, Risk Management, and Public Policy* Sandra G. Gustavson, Scott E. Harrington, 2012-12-06 Five years ago the world lost one of its most prolific insurance scholars Dr Robert I Mehr His death in 1988 signalled the passing of not only a gifted writer and researcher but also a pioneering teacher mentor and friend The essays compiled within this volume are intended as an appropriate tribute to this occasionally outrageous individual who touched the lives of so many within the insurance community Bob Mehr was a teacher who expected and demanded nothing less than perfect scholarship and flawless efficient writing Among alumni of the

University of Illinois insurance doctoral program stories still abound of late night and early morning sessions in which students and professor painstakingly debated precise words and phrases for dissertations journal articles and textbooks Bob's respect for language was both immense and contagious if at times more than a little compulsive He joked that he could not read letters or novels without pencil in hand for editing Bob's respect for his doctoral students was equally evident The confidence he displayed in his students abilities was sometimes startling but competence assumed often begot competence in fact The accomplishments and records amassed by the many who studied with Bob Mehr are impressive and ongoing On the dedication page in his final textbook *Fundamentals of Insurance* Bob spoke of his affection for those he called his academic progeny and wished them happiness as they build their own academic families      **The Weekly Underwriter** Alasco Delancey Brigham, Henry Rogers Hayden, 1928      *Fundamentals of Risk and Insurance* Emmett J. Vaughan, Therese M. Vaughan, 1999-02-17 This text is divided into three sections Topics include the concept of risk the nature of the insurance device the principles of risk management the fields of life and health insurance and the risks associated with the ownership of property and legal liability      *Cases Decided in the Court of Session, and Also in the Justiciary and House of Lords*, 1927      The Financial Condition and Regulation of Insurance Companies Richard W.
