The Bloomsbury Handbook of Religious Education in the Global South Yonah Hisbon Matemba, Bruce A. Collet, 2022-02-10 The Bloomsbury Handbook of Religious Education in the Global South presents new comparative perspectives on Religious Education RE across the Global South Including 23 chapters written by scholars from the Global North and South this is the first authoritative reference work on the subject The handbook is thematically organised into seven sections The first three sections deal with provision response to changes in contemporary society and decolonizing RE The next four sections explore young people and RE perspectives on teachers RE in higher education and finally challenges and opportunities for RE The term Global South is used here primarily to signify the deep economic divide with the Global North but the concept is also examined in historical geographical political social and cultural terms including the indelible influence of religion in all four broadly defined regions Exploring RE from local cross national as well as regional and sub regional perspectives the handbook examines RE from its diverse past present realities and envisioned future revealing not only tensions contestations injustices and inequalities of power but importantly how inclusive forms of RE can help solve these problems

Debates in Primary Education Virginia Bower, 2020-10-19 This powerful text encourages both pre service and established teachers as well as teacher educators to engage with contemporary debates in primary education Promoting a critical approach the chapters explore a wide range of key themes including the importance of values in primary education and the imperative for a curriculum which embraces the whole range of available subjects At the same time the chapters are underpinned by a belief that children should be at the heart of all the decisions we make and that primary education should inspire a love of learning for life The book aims to support practitioners to make informed judgements and feel confident to argue their point of view with deeper theoretical knowledge and understanding thus increasing teacher agency and confidence in responding to complex educational and social dilemmas such as literacy levels and rising mental health concerns Chapters encompass both the macro aspects of primary education and more specialised debates on key topics such as reading mathematics languages early years education and the use of technology With annotated further reading and reflective questions this key text is essential reading for all those wanting to develop a better understanding of the issues that shape their practice including student teachers at both undergraduate and postgraduate level practising teachers engaged in continuing professional development and teacher educators

Religious Education in Malawi and Ghana Yonah Matemba, Richardson Addai-Mununkum, 2021-03-15 Religious Education in Malawi and Ghana contributes to the literature on opportunities and complexities of inclusive approaches to Religious Education RE It analyses how RE in Malawi and Ghana engages with religious pluralisation and provides a compelling case for the need to re evaluate current approaches in the conceptualisation curriculum design and delivery of RE in schools in Malawi and Ghana The book explains how a pervasive tradition of selection involving exclusion and inclusion of religion in RE leads to misrepresentation and in turn to misclusion

of non normative religions where religion is included but marginalized and misrepresented The book contributes to wider discourse of RE on opportunities as well as complexities of post confessional approaches including the need for RE to avoid perpetuating the continued legitimisation of selected religions and in the process the delegitimization of the religious other as a consequence of misrepresentation and misclusion Inspired by Braten s methodology for comparative studies in RE the book draws on two qualitative studies from Malawi and Ghana to highlight the pervasive problems of religious misclusion in RE This book will be of great interest for academics scholars and post graduate students in the fields of RE African education educational policy international education and comparative education
