Circles in Education Reform Eric Shyman, 2016-10-04 Vicious Circles traces the history of development of public education and the near simultaneous advent of educational reform from its very beginning Drawing on history politics law sociology and educational research all aspects of public schooling are brought to light using a non partisan analytical approach Critically examining areas such as institutional racism sexism ableism ethnocentrism and xenophobia as well as the

corporatization and privatization of public schooling Shyman extracts the fundamental problems that have ever plagued and continue to plague successful education reform Essentially Shyman demonstrates that little progress in the area of education reform has ever been made Rather the same misinformed repackaged efforts by a disconnected and insularly private political elite have continued to be applied perpetuating a vicious circle of failed and misguided attempts at education reform
