A Friend of the Earth T. Coraghessan Boyle, 2000 T C Boyle's range as a novelist is breathtaking he is the kind of writer who is always setting himself new challenges who never ceases to astonish In A Friend of the Earth America's most imaginative contemporary novelist Newsweek blends idealism satire in a story that addresses the ultimate questions of human love the survival of the species A Friend of the Earth opens in the year 2025 as Tyrone O Shaughnessy Tierwater ekes out a bleak living in southern California managing a rock star's private menagerie of the species only a mother could love scruffy hyenas jackals warthogs three down at the mouth lions Global warming is a reality The biosphere has collapsed in a grim but very funny way most of the major mammalian species not to mention fish birds frogs are extinct Once as we see in alternating chapters that flash back to the last two decades of the twentieth century Ty was so seriously committed to environmental causes that he became an ecoterrorist convicted felon As a member of the radical environmental group Earth Forever he unwittingly endangered both his daughter Sierra his wife Andrea Now when he's just trying to survive in a world torn by obdurate storms winnowing drought Andrea comes back into his life What happens as the two slip into a reborn involvement makes for a gripping topical ever surprising story that is certain to stir readers emotions Gritty surreal frightening yet touching A Friend of the Earth represents a high water mark in Boyle's career his deep streak of social concern is effortlessly blended here with real compassion for his characters the spirit of sheer exhilarating playfulness readers have come to expect of his work
