

Observation of Children Free Play

Play is important for children, there are plenty of reason why play is an important thing for children such as learning how to socialize, learning their cognitive, exploring their imagination and much more from just simply having fun. For example, in the video 'Cute Is a Four-Letter Word' by Sarah Curtis she talks about how important play is and how it affects children to adulthood. In the Video she stated that there were two groups of children who were split up, one group was direct instructions for play and the second one was free play and it shown a big difference by allowing children to play freely. This essay will reflect on my observation of children free play. During free play Chloe went to the dramatic area to play in the kitchen with some friends, as soon as she got to the kitchen, she told one of her friends "ok you can get the drinks and I can get the food and we can eat." They started looking around the kitchen and grabbing all the cups, plates and utensils, the friend than told her "Chloe I need juice" Chloe reply back to her "we have no more juice I need to make a order" Chloe than went over to the counter and grab a toy ice cream sandwich and place next to her ear. The friend looks and said "Chloe that's not a phone" Chloe look at her and said "well it's my pretend phone" Chloe went on and pretended it was her phone and place an order for some juice. Soon after placing an order for juice Chloe saw some friends playing in the block area, she went to the block area and ask them "what are you guys doing?" one of the friends at the block area told her "we playing with the cars" Chloe ask them "can I have one car?" the friend replied and said "no you can't play with us" Chloe got upset and told them "fine I'm going to go on a bus and you guys can't ride on it" as she walks of, she was stomping her feet and went back to the dramatic area (Kitchen). She told some of her friends at the kitchen "you guys let's make a bus" one of the little girls said "Chloe bus

Observing Children At Play Essay:

When Music Goes to School Danette Littleton, 2015-09-04 Experts in child psychology and pedagogy concur that how children are schooled today seriously conflicts with how they learn and develop. Children are being left behind and the promises and possibilities of childhood are slipping away. This book aims to disclose a deeper understanding of music's importance in children's lives and their need to know, explore, wonder and play. Directed toward music teachers, teacher educators and scholars, this text invites inquiries and provides insights into contemporary challenges to learning and teaching in an era of standardization. A compendium of essays, classroom voices and vignettes is supported by relevant research in music education and companion disciplines in psychology, philosophy and sociology. Storytelling with scholarship contributes authenticity and strengthens the premise of this book.

Children's Folklore Elizabeth Tucker, 2008-09-30 Children have their own games, stories, riddles and so forth. This book gives students and general readers an introduction to children's folklore. Included are chapters on the definition and classification of children's folklore, the presence of children's folklore in literature and popular culture, and the scholarly interpretation of children's folklore. The volume also includes a wide range of examples and texts demonstrating the variety of children's folklore around the world. Children have always had their own games, stories, riddles, jokes and so forth. Many times children's folklore differs significantly from the folklore of the adult world, as it reflects the particular concerns and experiences of childhood. In the late 19th century, children's folklore began receiving growing amounts of scholarly attention and it is now one of the most popular topics among folklorists, general readers and students. This book is a convenient and authoritative introduction to children's folklore for nonspecialists. The volume begins with a discussion of how children's folklore is defined and how various types of children's folklore are classified. This is followed by a generous selection of examples and texts illustrating the variety of children's folklore from around the world. The book then looks at how scholars have responded to children's folklore since the 19th century and how children's folklore has become prominent in popular culture. A glossary and bibliography round out the volume.

Discovering Child Art Jonathan David Fineberg, Jonathan Fineberg, 2001-01-23 This book brings together thirteen distinguished critics and scholars to explore children's art and its profound but rarely documented influence on the evolution of modern art. It shows that children's art and childhood have inspired major works of art, served as central metaphors for artistic spontaneity and honesty, and provided a window into the fundamental human qualities explored by modern artists. The volume complements editor Jonathan Fineberg's groundbreaking new book *The Innocent Eye* Princeton 1997 in which he showed how many of the greatest masters of modern art collected and were directly influenced by children's drawings. Contributors here both expand on Fineberg's themes and take the study of children's art in new directions. They examine, for example, the influence of child art on such artists as Kandinsky, Klee, Larionov and Mir, the diverse styles of children's art, the influence of Romantic ideas on perceptions of

children's art the conception of giftedness versus education in children's drawings and the relationship between children's art and primitivism. The book offers unique glimpses into the working processes of great modern artists presenting for example Dora Vallier's personal recollections of Mir and his creative process and new documentation about the works of the Russian avant garde. The essays draw on art theory, psychology and the close study of individual works of art and written texts. *Discovering Child Art* will appeal to a wide range of readers including art historians, psychologists and art educators. Contributors to the book are Troels Andersen, Rudolf Arnheim, John Carlin, Marcel Franciscono, Ernst Gombrich, Christopher Green, Josef Helfenstein, Werner Hofmann, Yuri Molok, G. G. Pospelov, Richard Shiff, Dora Vallier and Barbara Wragg. **Child**

Written by leading scholars based in Australia, Canada, Finland, New Zealand, the UK and the USA, the chapters consider observation as it is enacted in the home, nursery or
