**Grandparents and the Law** Samantha M Davey,Jaime Lindsey,2023-05-18 Should grandparents have rights in relation to their grandchildren If so what should the content of those rights be both procedurally and substantively And what is the appropriate role of the law in providing solutions to problems arising in the context of grandparents rights This book considers these questions from both a public and a private law perspective and analyses the human rights implications for parties such as children parents and grandparents It also explores the topic of grandparents rights in the context of the European Convention on Human Rights and the United Nations Convention on the Rights of the Child as well as in other jurisdictions such as Iran France and Nepal The book argues that grandparents rights have so far received insufficient acknowledgement and consequently that relationships between grandparents and grandchildren have received insufficient protection However it is crucial that the protection of grandparents rights is balanced with the rights of parents and the rights and welfare of children the book considers how best to achieve this for example in disputes on child arrangements i e residence and contact child protection matters and in adoption cases The book is of particular interest to all academics seeking a clear framework for the protection of grandparents rights in private and public law proceedings

### **Care**

**Proceedings with an International Element** Maria Sofia Wright,2025-10-02 Presenting the findings of a study of 100 care cases this book provides rigorous analysis of how jurisdictional issues are determined and how information sharing of child protection operates across borders It draws on the first empirical study of the operation of private international law instruments Brussels IIa and the 1996 Hague Convention in care proceedings in England It also illustrates how prospective carers are assessed and the routes which are used to secure legal permanence for children living overseas In so doing it identifies all the ways in which children s welfare interests are compromised in the cross border context But it does suggest solutions identifying how private international law instruments their interpretation and application should be improved to promote the best interests of children This is an impressive work which will be invaluable to both scholars and practitioners

,2012-12-06 This compilation probably looks like one of the craziest things a human being could spend his or her time on Yet nobody would wonder at someone taking a short walk every day after twenty five years that person would have covered a surprisingly long distance This is exactly the story behind this list which appeared first as a few pages within the directory StarGuides or whatever name it had at that time and as a distinct sister publication since 1990 The idea behind this dictionary is to offer astronomers and related space scientists practical assistance in decoding the numerous abbreviations acronyms contractions and symbols which they might encounter in all aspects of the vast range of their professional activities including traveling Perhaps it is a bit paradoxical but if scientists quickly grasp the meaning of an acronym solely in their own specific discipline they will probably encounter more difficulties when dealing with adjacent fields It is for this purpose that this dictionary might be most often used Scientists might also refer to this compilation in order to avoid identifying a project by an acronym which already has too many meanings or confused definitions
