Address of the company:

Dear Mr./Ms. .

I am writing to apply for this internship program. My solid obligation to my works has been shown in my various volunteer encounters locally and at college. All through my certification, I chipped in week by week at nearby elementary schools where I lectured Class 6 and 7 subjects. Seeing the students light up with fervor while taking an interest in a scientific exploration or the understudy who has battled with a numerical idea to finally get what to do has been limitlessly compensating for me. Past the prizes, these encounters have shown me how to tailor my way to deal with the students' necessities and viably impart ideas to a gathering. abilities I know would work well for me in my future positions.

I have a real premium in learning however much as could be expected about a vocation in business and finance and would see any errand put before me as a positive learning experience. Through my examination as a math understudy, I have demonstrated my capacity to keep up with high interest, learn convoluted things and not surrender without any problem.

Capable in factual business information investigation, and dominates in cooperative group based conditions. I trust it is an ideal method to use my abilities to take care of business and monetary issues.

My essential objective in starting a profession in business and money is to obtain however much experience as could reasonably be expected. Not just I desire to develop my insight in current business and monetary universes, yet I would likewise want to secure a portion of the functional abilities that I should be better prepared for in this field.

I accept that working in business and money, I would have the advantage to see the value in that everything on the planet by one way or another influences my work. I would trust that this entry-level position would give me a chance to assemble a functioning relationship with pioneers in the field from whom I could acquire important information. I'm sure that any experience from this temporary job would end up being imperative to me in achieving my future objectives.  
Thank you for your consideration.

Sincerely,

**Your Graduate Training in Psychology** Peter J. Giordano, Stephen F. Davis, Carolyn A. Licht, 2012 Your Graduate Training in Psychology takes current and upcoming graduate students beyond the typical concerns of enrolling into graduate school and guides them on how to complete graduate school successfully. Unlike other books that focus on how to get into graduate school, this book directly addresses the major issues that students confront during their graduate training in psychology. A carefully selected cadre of expert authors in their respective areas illuminate the broad range of processes, practices, and procedural issues that face graduate students in both masters and doctoral programs. Ordered chronologically from the first year of graduate school to what students need to know as they finish winding down and gearing up, students will learn the key skills needed to succeed in all aspects of their academic and professional careers while in school and after beginning a professional career.

*Becoming a Neuropsychologist* John A. Bellone, Ryan Van Patten, 2021-03-08  
Becoming a Neuropsychologist is the first comprehensive resource for students interested in pursuing a career in neuropsychology. Whether you are a student in high school, college, or graduate school, or a professional interested in a career change, this book will serve as your North Star to help you navigate on your journey. To this end, Part I answers the questions: What is Neuropsychology? Why Neuropsychology? and Where Do Neuropsychologists Work? and ends with a discussion of the Challenges of Working in Neuropsychology. In Part II, you will find a step-by-step guide on how to move from where you are to the endpoint of working as a full-fledged neuropsychologist. Specifically, the authors provide concrete advice such as how to obtain adequate research and clinical training, how to apply to graduate school or doctoral internship programs, what criteria postdoctoral fellows need to meet to remain eligible for board certification, what questions to ask on interviews, or when looking for your first job, and much more. The book is packed with action steps and advice for maximizing your training and avoiding common pitfalls along the way. As our field looks to expand diversity and representation in our ranks, my hat is off to John Bellone and Ryan Van Patten for not only extending an invitation to the party but also for providing a map for how to get here. Kathleen Fuchs PhD ABPP Drs. Bellone and Van Patten have distilled the complexities of neuropsychology career development into an eminently readable and understandable roadmap. Glenn Smith PhD ABPP An easy accessible introduction into the field of neuropsychology. The authors open and personal accounts of their own journeys toward becoming clinical neuropsychologists read like a fireside chat with a beloved mentor. Jenn Davis PhD ABPP Informative, witty, and inspiring. After reading this, I feel re-inspired and excited to be pursuing a career in this field. Ilex Beltran Najera MA
