

STATEMENT OF PURPOSE FOR MBA FINANCE

The unexpected explosion of financial services industry and corporations has eventually brought regarding immense opportunities in order to use newer methodologies, principles, practices and tools in the aspect of finance. I believe that it is a very challenging field with which I would further want to gain expertise.

Ever since my school days, I have always been recognized as an individual who is brilliant, after being awarded a scholar badge certificate all throughout my university and school education. I have always been among the top students. It is my passion in the field of computers and mathematics has led me to select computer engineering as my undergraduate program.

As a field, finance had always interested me right from the very start. I have always believed that my interest in this field is a result of my interest and understanding that interest in the field of finance runs in my family. My brother and father both have degrees in the field of finance. I have always loved areas that need problem solving, mathematical and analytical skills. I am quite anxious to combine together the aptitude for and knowledge of, all these skills with the interest in finance.

I have always been planning to have a career in the field finance for many years. However, as an undergraduate of engineering, I concentrated primarily on getting a firm background in computers and mathematics. The years I have spent in the engineering program has equipped me with the skills and knowledge necessary to excel in a quite demanding profession of finance. My skills in Mathematics come from certain courses such as Linear Algebra, Calculus, Probability and Statistics, as well as Differential Equations. Aside from academic interests, I also had some diverse experiences when it comes to extra-curricular activities.
