The Job Doesn't Exist You're Hired Robert J. Glogowski, 2008-10-31 What happens when someone accepts a job position according to an interview and the job description but it turns out not to be what the company advertised? What if your new supervisor instructed that the work he assigned was to be done only according to his methods which violate Occupational Safety and Health Standards? What would you do if the supervisor harasses you for using safety gear? What if your supervisor gave other employees your paycheck stub for their review? Urban Heritage in Divided Cities Mirjana Ristic, Sybille Frank, 2019-09-18 Urban Heritage in Divided Cities explores the role of contested urban heritage in mediating subverting and overcoming sociopolitical conflict in divided cities. Investigating various examples of transformations of urban heritage around the world, the book analyses the spatial, social and political causes behind them as well as the consequences for the division and reunification of cities during both wartime and peacetime conflicts. Contributors to the volume define urban heritage in a broad sense as tangible elements of the city such as ruins, remains of border architecture, traces of violence in public space and memorials as well as intangible elements like urban voids, everyday rituals, place names and other forms of spatial discourse. Addressing both historic and contemporary cases from a wide range of academic disciplines, contributors to the book investigate the role of urban heritage in divided cities in Africa, Asia, the Americas, Europe and the Middle East. Shifting focus from the notion of urban heritage as a fixed and static legacy of the past, the volume demonstrates that the concept is a dynamic and transformable entity that plays an active role in inquiring, critiquing, subverting and transforming the present. Urban Heritage in Divided Cities will be of great interest to academics, researchers and students in the fields of cultural studies, sociology, the political sciences, history, human geography, urban design and planning, architecture, archaeology, ethnology and anthropology. The book should also be essential reading for professionals who are involved in governing, planning, designing and transforming urban heritage around the world.

Privatization and Public Employees Dudek & Company, 1988 A study examined the issue of contracting out traditional government services and its effect on government

employees It found that local governments contract out for two principal reasons to cut the cost of providing services and to employ specialized skills and resources unavailable within the government Findings from a review of the privatization literature were that 1 only about 5 10 percent of public employees affected by contracting out were laid off 2 public assistance payments to laid off workers were very low 3 private contractors paid lower wages and offered lower fringe benefits 4 contracting out was not inherently harmful to minorities or women and 5 contracting may have a slightly positive impact on the number of available jobs Interviews with local officials from 17 cities and counties generally confirmed these findings and indicated that very few workers were laid off as a result of contracting out and few cities had formal contracting out employment policies Policy recommendations were as follows 1 target new and expanded services for contracting out 2 establish a no layoff policy 3 reduce the government work force through attrition 4 encourage government employees to form private companies to provide government services 5 allow the city agency to compete in the bidding process and 6 develop policies for aiding displaced public employees 66 references YLB *FAIR EMPLOYMENT PRACTICE CASES Opinions of Federal and State Courts Under Federal and State Laws and Orders Relating to Employment Discrimination Based on Race, Color, Religion, Sex, Sexual Orientation, National Origin, Age, or Disability* ,1978 **Decisions and Orders of the National Labor Relations Board** United States.
