Designing and Implementing a Successful Undergraduate Research, Scholarship and Creative Activity Program Holly Unruh,Heather Haeger,John Banks,Winny Dong,2024-09-06 Designing and Implementing a Successful

Undergraduate Research Scholarship and Creative Activity Program is designed as a resource for faculty administrators and university leaders interested in developing new or expanding existing undergraduate research programs. The book provides a practical handbook addressing the many how-to questions associated with running a successful undergraduate research enterprise ranging from how to organize an undergraduate research office to how to find funding, foster cross-campus relationships, and develop learning outcomes for students in order to maximize the benefits of the research experience. It also addresses best practices in mentoring, how faculty mentorship fits within the discussion of tenure and promotion, and the basics of assessment for both funder reporting and program improvement. Containing a series of vignettes offering specific advice from program directors, faculty mentors, and university administrators from a diverse array of universities and colleges, this book showcases their hands-on tips, advice, and lessons learned. Addressing key issues through real-world experience, the authors show how to build effective cross-disciplinary undergraduate research programs with positive impacts for students and faculty.

A Guide for Developing a Culture of Caring Through Nursing Peer Mentorship Programs Deborah Kramer, 2024-08-19. This book describes in detail how to develop successful programs of nursing mentorship utilizing concepts of caring that yields a strong caring body of nurses who will be nurse thrivers as they find fulfillment and meaning in their professional commitment and will train others to do the same. The mentorship program is the ticket to success that many students need to complete their degree program, prevent burnout, pass the nursing NCLEX examination, and remain in the workforce after graduation. The current attrition rate in baccalaureate nursing programs is 25-50% as is the attrition rate in the first 2 years of employment of new RNs entering the workforce. Burnout is due to a lack of care and support for helping the students navigate the rigor and demands of the nursing program. Creating a community of learners with caring and support creates an environment that fosters academic engagement and success. The unique aspect of this book is its focus on creating a caring environment to support the students, helping them develop caring skills, empathy, resilience, and their own self-care, developing the skills for success beyond their educational process into the workforce. This book integrates all patterns of knowing: personal, aesthetic, empiric, and ethical, and provides the missing link of peer mentorship necessary to the development of resilient, emancipated nursing students and graduates capable of working in community with others to establish cultures of care in health care. This is a must-have resource for transformation of nursing education in the next century. Foreword by Dr. Margaret McClure.
