

## OTCAS PERSONAL STATEMENT EXAMPLE

I completely believe that all the people deserve nothing but the best quality of life that is possible. They should be allowed to complete their tasks everyday with full ease and satisfaction. It is quite easy to take all of these tasks for granted, not taking into consideration the impact of incapability to complete them. I am personally interested in becoming an occupational therapist because I believe that by adapting environment and teaching others, we can have a positive impact on the life of another person.

I am interested in taking advantage of the opportunity to potentially make a difference by assisting people towards gaining independence, and thus an increase in their self-confidence. I just want to become a part of a very diverse and rewarding career, while having the chance to closely work with other people, assisting them towards reaching progress.

I believe that the current subjects I am currently studying is giving me a good foundation for a degree level study, needing me to be highly logical, while working to meet deadlines. Religious studies and history have taught me in order to look beyond what is obvious, and focusing on underlying aspects.

My social care and health courses have also given me the chance to finish two placements. Both of them have effectively taught me to communicate well with other people of different backgrounds, encouraging me to be open in supporting people in different tasks that can help them to become independent. All of these skills will also help me in forming a better rapport with clients as an occupational therapist.

All in all, I feel that my studies, hobbies, as well as work experience have already provided me with all the vital skills needed in order to become a successful occupational therapist. My caring and hard working nature will also help me to support and improve my service to others.

**PERSONAL STATEMENT GUIDE** MALIHA. KHATUN, 2023

**Successful Personal Statements** Chen Du, 2019-02-18. This book is dedicated to applicants in China and other nations. The essays are successful personal statements, statements of purpose, and application essays to first-rate graduate schools, colleges, and universities in Western countries including United States of America, Canada, The United Kingdom, Germany, France, Australia, Sweden, Russia, and other European countries in a wide variety of fields of study in the sciences and the humanities. By default, the essays are personal statements unless specified. They were written from 2005 to 2016 and are listed in reverse chronological order within each category. Most of them are written based on a significant number of raw materials provided by the applicants in the Chinese language and are a true reflection of the backgrounds and experience of the applicants. During the writing process, the raw materials are screened, selected, organized, compiled, condensed, extracted, highlighted, and showcased. In some sense, it is the integration of creation, translation, and editing. The book was formatted in Microsoft Word and some essays have retained their original format in order to resemble a true application essay. This collection aims at illustrating that there isn't one set of standards for a successful personal statement or statement of purpose across different English-speaking countries and different fields. Instead, a truly successful personal statement or statement of purpose is the one that can touch the humanity and heartstrings of admissions committees and professors of top schools in all Western countries by thoughtfully expressing the true achievement and intent of each applicant. It is worth

noting that even though the author endeavored to perfect each essay in each moment readers of this book should understand that perfection is a process and not a destination There is no such thing as a perfect application essay Perfection is improving at each stage getting better and better If this book can inspire a reader to write a better application essay its purpose is fulfilled
