

Psychotherapy Progress Note

Use this note to document individual, family or couples psychotherapy sessions and person's response to the intervention during a specific contact.

Data Field	
Person's Name	Record the first name, last name, and middle initial of the person. Order of names is at agency discretion.
Record Number	Record your agency's established identification number for the person.
Person's DOB	Record the person's date of birth.
Organization Name:	Record the organization for whom you are delivering the service.
Modality	Check appropriate box to indicate the type of session: individual, family or couple.
List Name(s) of Person(s) Present	Check appropriate box to indicate whether the person is "Present", is a "No Show/Cancelled" or the "Provider Cancelled". For cancellations, complete "Explanation" as needed. Check appropriate box to indicate if others are present, list name(s) and relationship(s) to person.
Person's Report of Progress Towards Goals/Objectives Since Last Session	Document person's self-report of progress towards goals since last session including other sources of information, such as family, case manager, etc...
New Issue(s) Presented Today	<p>There are four options available for staff using this section of the progress note:</p> <ol style="list-style-type: none"> 1. If person does not report/present any new issues, mark "None Reported" and proceed to planned interventions/goals. 2. If person reports a new issue that was resolved during the session, check the "New Issue Resolved, no CA Update required" box. Briefly document the new issue, identify the interventions used in the Therapeutic Interventions Section and indicate the resolution in the Response Section of the progress note. 3. If person presents an issue that has been previously assessed and for which Goals/Objectives and services have been ordered, then the information may be briefly documented as an indicator of the progress or lack of progress achieved. 4. If person presents any new issue(s) that represent a therapeutic need that is not already being addressed in the IAP, check box indicating a "CA Update Required" and record notation that new issue has been recorded on a Comprehensive Assessment Update at the same date and write detailed narrative on the appropriate CA Update as instructed in this manual. Also, the newly assessed therapeutic information may require a new goal, objective, therapeutic intervention or service that will require further use of the IAP Review/Revision form. <p>Example: Person described being involved in a minor car accident today. Person was not hurt but expressed concern regarding expense of car repair. Person felt more relieved after identifying ways to cover expense over the next two weeks.</p> <p>Example: Person reported for the first time that she was a victim of abuse/neglect at the age of twelve as recorded on the Comprehensive Assessment Update of this date.</p>

Sample Therapy Notes For Depression:

Readings in Health Care Ethics - Second Edition Elisabeth (Boetzkes) Gedge, Wilfrid J. Waluchow, 2012-03-14 Readings in Health Care Ethics provides a wide ranging selection of important and engaging contributions to the field of health care ethics. The second edition adds a chapter on health care in Canada and the introduction has been expanded to include discussion of a new direction in feminist naturalized ethics. The book presupposes no prior knowledge only an interest in the bioethical issues that are shaping our world [Therapeutic Notes](#) ,1940 **The Oxford Handbook of Research**

Strategies for Clinical Psychology Jonathan S. Comer, Philip C. Kendall, 2013-03-26 Mental health problems impose a staggering worldwide public health burden. Regrettably whereas many sciences have been progressing for centuries e.g. biology chemistry it is only recently that the strategies of science have been applied to the field of clinical psychology. At this relatively early stage in the science of clinical psychology the majority of work is ahead of us and as such the prepared investigator must be familiar with the full portfolio of modern research strategies a set of directions for getting from here to there. To continue to move the science of clinical psychology forward investigators benefit when they systematically rely on research strategy routes that achieve favorable balances between scientific rigor and clinical relevance. With this need in mind The Oxford Handbook of Research Strategies for Clinical Psychology has recruited some of the field's foremost experts to explicate the essential research strategies currently used across the modern clinical psychology landscape that maximize both precision and significance. Chapters in this volume address design measurement and analytic strategies for clinical psychology including comprehensive coverage of effective laboratory methods in experimental psychopathology single case experimental designs small pilot trials the randomized controlled trial adaptive and modular treatment designs and dissemination methods and models change measurement observational coding measurement of process variables across treatment structural and functional brain imagining and experience sampling data collection methods statistical power correlation and regression randomized clinical trial data analysis conventions in mediation and moderation analysis structural equation modeling meta analytic techniques item response theory and the appropriate handling of missing data. The book concludes with an integrative summary of research strategies addressed across the volume and guidelines for future directions in research methodology design and analysis that will keep our young science moving forward in a manner that maximizes scientific rigor and clinical relevance **Medication Therapy Management, Second Edition** Karen Lynn Whalen, 2018-04-05 Publisher's Note Products purchased from Third Party sellers are not guaranteed by the publisher for quality authenticity or access to any online entitlements included with the product.
