Financing the Landed Estate Carol Beardmore,2019-05-10 While there is an extensive historiography which explores English agriculture in the nineteenth century there has been less attention paid to individual estates and in particular the role of the land agent within their management administration and participation in rural community relationships Nowhere is this more obvious in the lack of research into the financial history of the landed estate even though in the early nineteenth century these were some of the largest businesses in England The Castleman letters are a rich source which detail the intricate working financial social and political relationships which constituted the foundation of the landed estate The vouchers of which more than 10 000 have survived alongside the rental accounts have rarely been examined On their own they illustrate for example the sums paid out on maintenance the interest payments on mortgages charitable expenditure spending on property repairs and one off payments for a wide and diverse range of items Together with the diurnal correspondence all three aspects of the archive detail the daily financial undertakings and form the foundation of a new financial history of the estate This book will show that estate management was underpinned by an inherent understanding of the financial decisions which needed to be taken and will be of interest to academics and researchers of financial history

Rural Life in Victorian England G. E. Mingay,1990 **William Cobbett and Rural Popular Culture** Ian Dyck,1992-04-02 The first major study of the rural and cultural career of William Cobbett engages Cobbett s own writings and other innovative sources such as popular songs to tie Cobbett s radical politics to rural society *D, Society. Leisure in the Industrial Revolution Hugh Cunningham,2016-07-01 First published in 1980 This book is a study of what different classes of society understood by leisure and how they enjoyed it It argues that many of the assumptions which have underlain the history of leisure are misleading and in particular the notions that there was a vacuum in popular leisure in the early Industrial Revolution that with industrialisation there was sharp discontinuity with the past that cultural forms diffuse themselves only down the social scale and that leisure helped ease class distinctions An alternative interpretation is suggested in which popular culture can be seen as an active agent as well as a victim This title will be of interest to students of history *The Best Books: D, Society. E, Geography. 1912* William Swan Sonnenschein,1912

Assisting Emigration to Upper Canada Wendy Cameron,Mary McDougall Maude,2000-08-30 Using a rich collection of contemporary sources this study focuses on one group of English immigrants sent to Upper Canada from Sussex and other southern counties with the aid of parishes and landlords In Part One Wendy Cameron follows the work of the Petworth Emigration Committee over six years and trace how the immigrants were received in each of these years In Part Two Mary McDougall Maude presents a complete list of emigrants on Petworth ships from 1832 to 1837 including details of their background family reconstructions and additional information drawn from Canadian sources Paternalism strong enough to slow the wheels of change is embodied here in

Thomas Sockett the organizer of the Petworth emigrations and his patron the Earl of Egremont and in Lieutenant Governor Sir John Colborne in Upper Canada The friction created as these men sought to sustain older values in the relationship between rich and poor highlights the shift in British emigration policy In these years of transition immigrants sent by the Petworth Emigration Committee could accept assistance and the government direction that went with it or they could rely on their own resources and find work for themselves Once the transition was complete the market driven model took over and immigrants had to make their own best bargain for their labour Understanding the Victorians Susie L.
