Berkley, 2008-01-01 This substantial resource offers pastors and church leaders practical insight into the daily issues of running a church. Conceived and compiled by the editors of *Leadership Journal*, this book covers the full spectrum of ministry practice. O'Connell, 2013 The *Leader's Handbook* Second Edition updates the previous edition's references and resources and adds many new ones and triples the number of photographs. This book is based on over 35 years of practical experience and very few if any leadership books have this depth of leadership analysis. It is geared toward training group management and youth development and will demonstrate how to effectively work with and lead games and play activities. Topics include basic concepts, enthusiasm, safety, presentation, maintaining the flow of play, closing a game session, game theory, leader roles, managing a large event, positive discipline, situational leadership, and transition activities. A variety of resources including books, magazines, equipment, and organizations are also provided. Focusing on more than just theory, *The Leader's Handbook* is a practical guide that shows leaders how to create fun with real people in real situations. *The Leadership Handbook* Bomi Doctor, 2020-11-20 There are several types of leaders; however, essentially two variants: one who holds the designation of a leader and the other whose job demands leadership quality. You do not need to have a title to be a leader. A good leader is one who develops leaders under him. While a lot has been written on leadership, few if any by an Indian who has worn out the soles of his shoes in the Indian corporate world, from field to desk, to leadership. This book defines authentic leadership in the context of today's world. What makes this book a great handbook for a new manager or a seasoned one is its Power of Simplicity, which rests on actual experiences drawn from the author's own work life. This is a great handbook for aspiring leaders and leaders as well and has lots of practical examples that actually allow leaders referral points to navigate their own corporate attitude, associations, and path. A master at identifying pain points, Doctor has left nothing to subtly and bluntly confront the issues at hand. His plain speaking style will resonate with managers on the job, like it has in the course of his various consultancy assignments. A book to be thumbed through ever so often and in real time, it is powerful and insightful. A must read, this book offers tremendous value in terms of guidance and growth for those young leaders who want to excel in their assigned roles. For all those leaders who extract the lessons from this simple yet powerful book, the reward in terms of results will be extraordinary. [The Leadership Handbook](#) John C.
