

# Local Amusement Park's Design Project

 Exclusively available on IvyPanda

## Introduction

It can be stated that the local amusement park's business, as a rule, is characterized by seasonality. This kind of entertainment involves maximum attendance at the weekends as during the week it is rather low (Rabinovitz 163). However, the proposed project will be located in the open air; consequently, the main factor for the attendance will be the weather conditions. The main consumers in the market are families with or without children and younger adults. It is necessary to consider various issues to be able to evaluate the prospective success of the proposal.

## Background

Due to the current trends in the amusement park business, there are several problems and difficulties associated with the embodiment of the project. The reduction in the flow of investment and the overall decline in economic growth hurts the development of this area; thus, its popularity is constantly decreasing (Coleman 219). Also, the gradual strengthening of the competition, in particular, the proliferation of computer game parlors leaves little room for the survival of the non-network projects. Also, the overall slowdown in demand for the services in this market is reflected in a lower attendance of the target audience.

In this regard, it is necessary to implement such a project, which will take into account the existing conditions, will open the prospect of development, and will be competitive in the market (Kuniavsky, Goodman and Moed 15).

It can be assumed that the development of *Fall'n Twist 12* will respond to the requirements set by the current setting and situation in the market. It will be capable of raising twelve people to a height of twelve meters. The design project will be represented by an air-powered drop and twist tower that would belong to the class of family rides, and its mount type will be either a portable or a park model. Its main characteristics will be compactness, portability, and reliability.

Alexander J. Reichl,1999 When the big ball drops on New Year s Eve thousands are there to witness that great glittering sight while millions more watch on national television Times Square may be the cultural hub of America the Crossroads of the World but its lights have not always shone as brightly as they do now Once a glamorous theater district Times Square and 42nd Street had degenerated into a neighborhood known for the winos and sex shops of Midnight Cowboy until New York s business and arts communities stepped in These advocates of urban revitalization exploited cultural and historic preservation arguments to transform a low income entertainment district into a Disney fied tourist mecca Where Ratso Rizzo once kicked cars and hookers plied their trade Mickey Mouse now greets visitors from atop a Disney superstore surrounded by rising office towers theaters and theme restaurants all thanks to huge tax subsidies and government support Alexander Reichl tells the fascinating story of how cultural politics and economic greed transformed the city s physical and social environment with an ongoing multibillion dollar redevelopment program changing the district from a symbol of urban decline to one of urban renaissance He explains the political significance of the historic preservation and arts related approach to urban revitalization showing how it was used to appeal to the upscale values of middle class New Yorkers often hostile to urban renewal He also examines the role of the Walt Disney Company in the project and demonstrates its power to redefine a premier public space In telling the story of Times Square Reichl reveals much about politics and power at the city level and their relationship to the development of urban space He frames his lively narrative with an illuminating account of how historic preservation initiatives at all government levels have displaced large scale federal urban renewal programs as the dominant approach to urban development and he shows the importance of political discourse and cultural politics in mobilizing public support for urban redevelopment Now that it has been reconfigured for the 21st century Times Square provides a rich and multifaceted case for exploring the latest trends in urban renewal Yet Reichl suggests much that has happened here is regrettable the ousting of low income citizens to serve commercial interests the loss of a culturally diverse entertainment district and the failure to address persistent class and race based segregation in a central urban area By getting to the heart of the Great White Way Reconstructing Times Square provides an important look at urban renewal and politics in a changing America *History of Westchester County, New York* Alvah P.
