**Artificial Intelligence into ERP Software** Siar Sarferaz,2024-05-30 This book explains how to embed artificial intelligence  
 in digitized business processes of ERP software by solving the two related substantial challenges how can artificial  
 intelligence be systematically integrated into ERP business processes for ease of consumption and how can artificial  
 intelligence be made enterprise ready by covering ERP qualities like compliance lifecycle management extensibility or  
 scalability As a general introduction the first part of this book takes the reader through a historical journey towards  
 intelligent ERP systems In addition reference processes and a reference architecture for ERP systems are proposed which  
 build the foundation for the suggested subsequent solution concept including a method for operationalizing intelligence for  
 ERP business processes Subsequently in the second part detailed concepts of embedding artificial intelligence into ERP  
 software are proposed In this context the suggested solution architecture is depicted and specific topics are resolved like  
 data integration model validation explainability data protection and privacy model degradation and performance In the last  
 part an implementation framework is suggested which enables the previously introduced concepts and harmonizes the  
 development and operations of artificial intelligent ERP applications This part concludes with case studies considering  
 artificial intelligence scenarios of SAP S 4HANA in the areas of logistics finance and sales which apply the defined solution  
 approach and shows its real world feasibility This book is written for professionals who want to implement as developers or  
 exploit as business analysts or consultants or consider plan the implementation exploitation as managers of artificial
