Precarity in Contemporary Literature and Culture Emily J. Hogg, Peter Simonsen, 2021-04-22 The contemporary moment is characterized by precarity an expanding and intensifying vulnerability conditioned by political and economic structures Using literary and cultural texts to develop a nuanced and critical exploration of the concept of precarity that emphasizes its contemporary manifestations while also attending to its historical roots and existential dimensions this book examines the vulnerabilities which characterize our anxious existence including unemployment environmental crisis temporary contracts and patterns of migration Broken down into three key themes of feelings bodies and time *Precarity in Contemporary Literature and Culture* asks whether precarity can be considered a new phenomenon explores the relationship between precarity and traditional class politics analyses precarity's global dimensions and reflects on the links between contemporary crisis and underlying existential human vulnerability With reference to a wide range of forms such as contemporary realist science fiction and modernist novels film theatre and the lyric poem this book goes beyond one national context to consider texts from the US UK Germany and South Africa

Posthumanity in the Anthropocene Esther Muñoz-González, 2023-04-20 In this book Margaret Atwood's dystopian novels *The Handmaid's Tale* the MaddAddam trilogy *The Heart Goes Last* and *The Testaments* are analyzed from the perspective provided by the combined views of the construction of the posthuman subject in its interactions with science and technology and the Anthropocene as a cultural field of enquiry Posthumanist critical concerns try to dismantle anthropocentric notions of the human and defend the need for a closer relationship between humanity and the environment Supported by the exemplification of the generic characteristics of the cli-fi genre this book discusses the effects of climate change at the individual level and as a collective threat that can lead to a world without us Moreover Margaret Atwood is herself the constant object of extensive academic interest and Posthuman theory is widely taught researched and explored in almost every intellectual field This book is aimed at worldwide readers not only those interested in Margaret Atwood's oeuvre but also those interested in the debate between critical posthumanism and transhumanism together with the ethical implications of living in the Anthropocene era regarding our daily lives and practices It will be especially attractive for academics university teachers postgraduates researchers and college students in general

Understanding Public Debates Jens Martin Gurr, 2024-06-20 By historicizing and contextualizing them through readings of carefully selected literary texts literary studies can contribute to understanding and rationalizing key debates waged in many pluralist societies today whether on different conceptions of liberty identity politics historical commemoration challenges of globalization or responses to climate change *Understanding Public Debates* presents case studies including Milton's *Paradise Lost* P B Shelley's 1820 Reform essay Philip Roth's *The Human Stain* the songwriting of Neil Young and Edward Young's 1720s Sea Odes recent climate fiction as well as non literary conflict narratives Rather than mining texts for

arguments for or against certain positions this book is interested in how texts stage these debates by means of multiple perspectives narrative situations or ambiguities By suggesting how educators might use literary texts as conversation starters for more rational debates the volume also contributes to Public Literary Studies Three important fields are here brought together 1 the study of societal debates and conflicts and the ways in which they challenge pluralist societies 2 explorations of the societal functions of literature and of non literary narratives and 3 discussions of the role and functions of literary studies The book ends with ten crisp theses on how literary studies can contribute to understanding and rationalizing such conflictive debates
