

Should Students Wear School Uniforms?

There has been a battle among education stakeholders. The fight is over school uniforms and why students should wear them. It is difficult to trace the origins of the school uniforms, however, uniforms in schools have become a common practice all over the world. The most crucial part of the discussion is the fact that school uniforms is different from a dressing code. With a dressing code, people are just given guidelines on what wear to achieve desired looks. Contrary to this, uniforms dictate that everyone wears a particular dress. Thus, the uniforms come in as a regulation in an educational institution. Different people have different views on school uniforms. Some support the practice while others oppose. This paper will explore two different sets of opinions regarding uniforms. The paper holds that although there are many advantages attributed to uniforms, there are equally as many disadvantages and that the latter outweighs the former.

School uniforms proponents feel that uniforms play a role in eliminating financial and status gaps as well as instilling discipline. Those opposing the practice feel that uniforms deprive students of their freedom and promotes conformity over individuality. Based on evidence from various research findings, it is worth noting that the adverse effects of uniforms outweigh the positive ones. In this breath, schools have fought to maintain uniforms in school, but psychologists and legal professionals feel that this is not the way to go.

According to an article by Cribbie, school uniforms creates a school community. It does this by breaking both financial and social barriers among students (Cribbie, 140). Students from poor backgrounds would tend to be intimidated if it were not for school uniforms. Rich kids would be left to walk in their expensive attire, jewelry, and costly hairstyles. Uniforms makes the students look and feel equal. Additionally, for participation in school programs, students are picked based on their personality and not their looks or more importantly what they are wearing. This way, all students in a school get equal chance and treatment. Cribbie (147), posits that it is through school uniforms that a schooling culture is created. Only those in uniforms recognize that they are students. It creates a school spirit, pride, and unity and hence makes the culture grow (Cribbie, 151). To this end, incorporating school professionalism as part of the schooling culture will be easy. School pro

In the Best Interest of Students Kelly Gallagher, 2023-10-10 In his new book *In the Best Interest of Students Staying True to What Works in the ELA Classroom* teacher and author Kelly Gallagher notes that there are real strengths in the Common Core standards and there are significant weaknesses as well He takes the long view reminding us that standards come and go but good teaching remains grounded in proven practices that sharpen students literacy skills Instead of blindly adhering to the latest standards movement Gallagher suggests Increasing the amount of reading and writing students are doing while giving students more choice around those activities Balancing rigorous high quality literature and non fiction works with student selected titles Encouraging readers to deepen their comprehension by moving beyond the four corners of the text Planning lessons that move beyond Common Core expectations to help young writers achieve more authenticity through the blending of genres Using modeling to enrich students writing skills in the prewriting drafting and revision stages Resisting the de emphasis of narrative and imaginative reading and writing Amid the frenzy of trying to teach to a new set of standards Kelly Gallagher is a strong voice of reason reminding us that instruction should be anchored around one guiding question What is in the best interest of our students
