of Frankfurt Main IEAS course The Memoir Boom Literary Cultural and Social Perspectives language English abstract All auto biographies and memoirs have one thing in common they are usually written in the retrospective way meaning that even if they read chronologically forward they are composed essentially backward Louis Menand in Smith and Watson In life writing the term memoir is complex to define since it has different definitions depending on various contexts The term memoir derives from the French word for memory which implies that it could be written in a subjective and impressionistic rather than a factual and strongly evident way A memoir can neither be fiction nor a novel since the memoir genre tries to depict the ultimate truth and the real life of the author the first person narrator or other individuals Nonetheless nowadays memoirs can also include invented or enhanced materials or novelistic techniques as embellishments because they are a form of literary art Couser It is often hard to distinguish between memoirs or factual writing and fiction because many works are paradoxically hybrid forms of both of the literary types and additionally fiction often pretends to be factual and to depict the real world Furthermore the term memoir is often used as a synonym of autobiography even though it is only a subgenre of autobiography because the memoir must not be about the author him or herself whereas biography can be about anyone who has ever existed memoir can only concern someone known to and remembered by the author It will be or resemble reminiscence consisting of personal recollection Couser Memoirs in direct comparison to autobiographies generally tend to be more concise selective and focused According to G Thomas Couser what differentiates life writing from the real life is that life is long multidimensional and complex sometimes chaotic and life writing must have form and focus Life inevitably far exceeds the capacity of writing to contain it Even though the memoir genre and especially its flourishing in the United States of America and Great Britain is a patriarchy product it strengthened feminism and allowed women to speak publicly in form of a written and published book a typical memoir Often the memoirs of female writers report about traumatic periods in their life such as abuse or violence The Making of a Terrorist: Training James J. F. Forest, 2006 Global terrorism has become a frightening reality The situation calls for greater engagement with the public as the necessary eyes and ears of the global anti terrorism coalition However to be effective the public must be equipped with the knowledge of how why and where an individual becomes a terrorist This is the primary goal of this set which seeks to answer one central question What do we currently know about the transformation through which an individual becomes a terrorist *Fake Love* Nova Gibson, 2023-08-01 Clear concise and empowering self help about navigating and healing from narcissistic abuse by Australia s go to specialist counsellor The love of a narcissist is fake It s a soul destroying realisation for every victim of narcissistic abuse but even more damaging is finding yourself trapped and abused by the person who claims they love you Nova Gibson has helped thousands of people in their struggle to understand extricate themselves and heal from toxic relationships and narcissistic abuse Drawing on the expertise gained from a decade of working with clients and her global online community Nova offers comfort knowledge and powerful strategies to help you identify navigate and survive this extremely covert
