**Nature Meets Nurture** Stacey N. Doan, Jessica L. Borelli, 2022 Every parent has pondered nature vs. nurture questions. How much of my child's personality and behavior is inborn? How much is learned? This important new book, written by behavioral scientists who are also mothers, has answers. This book offers the best parenting practices to foster resilience by encouraging children's social emotional development and adaptive stress regulation strategies. The authors translate scientific research into concrete, actionable tips and recommendations to help promote the emotional well-being of both child and parent. Authors Stacey N. Doan and Jessica Borelli offer a science-based framework to help show parents and guardians how biology and parenting work together. Although genetics are significant, DNA is not destiny; the die is not cast at birth. Parenting still matters deeply. Cutting-edge epigenetics research and other recent scientific insights are explained to show that biology and parenting behavior are integrally intertwined. Increasingly competitive schools, looming threats of climate change, and the Covid-19 pandemic have sent many parents' anxiety spiraling out of control. This affects their kids, creating a recurring cycle of stress and worry. This book is here to help.

**Handbook of Resilience in Children** Sam Goldstein, Robert B. Brooks, 2012-08-04 Today's children face a multitude of pressures from the everyday challenges of life to the increasing threats of poverty, exploitation, and trauma. Central to growing up successfully is learning to deal with stress, endure hardships, and thrive despite adversity. Resilience, the ability to cope with and overcome life's difficulties, is a quality that can potentially be nurtured in all young people. New and revised chapters explore strategies for developing resilience in the family, the therapist's office and the school as well as its nurturance in caregivers and teachers. Topics addressed include Resilience in maltreated children and adults, Resilience and self control impairment, Relational resilience in young and adolescent girls, Asset building as an essential component of treatment, Assessment of social and emotional competencies related to resilience, Building resilience through school bullying prevention programs, Large scale longitudinal studies on resilience.
