Raising Resilient Kids Roy L. Clement, 2023-01-20 Can we teach our children resilience in the same way that we educate them to be kind, take turns, or be respectful of others? Not quite. Everybody has some degree of resilience from birth, and life circumstances may either foster it or inhibit it. Some children appear to be more resilient by nature, while others seem to acquire the quality through time and via adversity. Resilience can also be simply defined as having done difficult things and understanding how to make them easier the next time.

How Parents Can Raise Resilient Children Frank Dixon, 2020-03-31 Tired of tantrums and tears? Discover a more mindful, attentive, and adaptive parenting style that instills a lifelong habit of resilience and confidence in your child. Being a parent isn't easy. From the ear-splitting temper tantrums of the terrible twos to the heart-stopping antics of elder siblings who should know better, sometimes the family home can feel more like a psychological battleground with a masterful manipulator of your emotions. One thing is for sure: a child's life is one of exploration, discovery, and wonder. But between those wondrous moments, even the most cautious of children will suffer the consequences of their youthful trial and error. As a parent, it's hard to say no to an eager little face that you love, and it only gets harder when resisting your natural, hard-wired impulse to rush in and save them from their terrible decisions. Does this make you a bad parent? Of course not. You are like your children: a human trying to make sense of the world, and you alone have the power and responsibility to show them the best path forward. But just where do you draw the line between liberty and discipline? *How Parents Can Raise Resilient Children* is a new step-by-step guide that shows parents how to navigate the precarious tightrope of raising independent, resilient, and honest children. Taking inspiration from some of the latest research in child development studies, Frank Dixon lifts the lid on just why kids will be kids and how parents can build an empathic, nourishing, and stable relationship with their children based on empowering behavior, mentorship, and building on a foundation of 7 C's: competence, confidence, connection, character, contribution, coping, and control. Dixon offers an easy-to-follow strategy that frazzled parents can immediately put into action. *Childish Mistakes Are the Building Blocks of Adult Success*. How
