**Envisioning futures for environmental and sustainability education** Peter Blaze Corcoran, Joseph P.

Weakland, Arjen E.J. Wals, 2023-08-07 This edited collection invites educational practitioners and theorists to speculate on and craft visions for the future of environmental and sustainability education. It explores what educational methods and practices might exist on the horizon waiting for discovery and implementation. A global array of authors imagines alternative futures for the field and attempts to rethink environmental and sustainability education institutionally intellectually and pedagogically. These thought leaders chart how emerging modes of critical speculation might function as a means to remap and redesign the future of environmental and sustainability education today. Previous volumes within this United Nations Decade of Education for Sustainable Development series have responded to the complexity of environmental education in our contemporary moment with concepts such as social learning, intergenerational learning, and transformative leadership for sustainable futures. Envisioning Futures for Environmental and Sustainability Education builds on this earlier work as well as the work of others. It seeks to foster modes of intellectual engagement with ecological futures in the Anthropocene to develop resilient adaptable pedagogies as a hedge against future ecological uncertainties and to spark discussion concerning how futures thinking can generate theoretical and applied innovations within the field.

Crisis Cinema in the Middle East

Shohini Chaudhuri, 2022-06-16 In recent years the Arab world and Iran have been afflicted by cataclysmic events among them brutal state crackdowns of revolutions. Yet filmmakers have persisted in their desire to tell their stories against the odds in creative acts that attest to their imagination, courage, and resilience. In this book Shohini Chaudhuri examines a broad range of films made during the tumultuous period since 2009, ranging from internationally award-winning festival favourites such as *For Sama* 2019, *Capernaum* 2018, and *Taxi Tehran* 2015 to lesser known films from the region. While freedom of expression is often understood through the lens of state censorship, she reveals the different types of obstacles that filmmakers face and their strategies for overcoming them so that those constraints are transformed into creative opportunities. Using her original interviews with filmmakers such as Waad al-Kateab, Yasmin Fedda, Larissa Sansour, Mani Haghighi, and Ossama Mohammed, she identifies nine creative strategies for producing work under conditions of crisis. Chaudhuri argues that creativity is indelibly shaped by constraints, whether these are externally imposed by existing materials, funding, and socio-political conditions, or self-imposed constraints through choices of genre or acceptance of rules and responsibilities. She shows that the range of creative strategies emanating from the region is much wider than allegory and becoming ever more direct. She thus opens up new lines of inquiry into cinematic creativity in sites of conflict and crisis in the Middle East and beyond.
